The global Escalator Cleaning Service market size is predicted to grow from US\$ 696 million in 2025 to US\$ 914 million in 2032; it is expected to grow at a CAGR of 4.0% from 2026 to 2032.

Escalator cleaning service is a professional cleaning and maintenance service designed to ensure the hygiene and safety of escalators. This service is usually provided by a professional cleaning team, who use advanced cleaning equipment and environmentally friendly cleaning agents to thoroughly clean the steps, handrails, pedals, side walls and bottom of the escalator. During the service, the cleaning team will pay special attention to removing stains such as grease, dust, and chewing gum to prevent bacteria from growing and ensure the health and safety of passengers. In addition, they will also check and maintain the cleaning parts of the escalator, such as brushes and dust suction ports, to ensure their normal operation. The escalator cleaning service not only improves the hygiene level of public places, but also extends the service life of escalators. It is an indispensable service item in large public places such as shopping malls, airports, and subways.
