## Abstracts

The global Ethylene Oxide Gas Sterilizer market size is predicted to grow from US\$ 669 million in 2025 to US\$ 1094 million in 2032; it is expected to grow at a CAGR of 7.4% from 2026 to 2032.

Ethylene Oxide Gas Sterilizer is a medical sterilization system that uses ethylene oxide gas to eliminate microorganisms from heat- and moisture-sensitive products such as medical devices, surgical instruments, and pharmaceutical packaging. The system operates under controlled conditions of temperature, humidity, gas concentration, and exposure time to ensure deep penetration and effective sterilization without damaging delicate materials. It is widely used for products that cannot withstand traditional high-temperature sterilization methods and requires subsequent aeration to remove residual gas and ensure product safety. The unit price of Ethylene Oxide Gas Sterilizer ranges from tens of thousands to hundreds of thousands of US dollars, with an industry gross margin between 25% and 35%.

Upstream, the supply chain includes key components such as pressure vessels, vacuum systems, gas delivery and control modules, sensors, and automation systems, as well as the supply of ethylene oxide gas and specialized packaging materials that allow gas permeation. Equipment manufacturers integrate these elements into complete sterilization systems with precise environmental control and safety features.

Downstream, demand is driven by medical device manufacturers, pharmaceutical companies, contract sterilization service providers, and healthcare institutions, where the equipment is used to sterilize a wide range of products prior to distribution or clinical use. The value chain is strongly influenced by regulatory requirements, environmental controls, and safety standards, leading to close collaboration between equipment suppliers, gas providers, and end users.

United States market for Ethylene Oxide Gas Sterilizer is estimated to increase from US\$ million in 2025 to US\$ million by 2032, at a CAGR of % from 2026 through 2032.
