## Abstracts

The global Event Decoration Service market size is predicted to grow from US\$ 2336 million in 2025 to US\$ 3464 million in 2032; it is expected to grow at a CAGR of 5.8% from 2026 to 2032.

To address the problems of low efficiency in event setup, difficulty in creating themed atmospheres, and high costs associated with material reuse, event decoration services have emerged. Since the professionalization of event decoration services in the 1990s, the field of event planning and scene design has developed significantly. Currently, event decoration services have evolved into a comprehensive service encompassing indoor and outdoor setups, customized themes, and rental of eco-friendly props, widely used in conferences, celebrations, wedding planning, and commercial marketing events, significantly enhancing the visual appeal and event experience.

The event decoration service market is currently undergoing a three-stage evolution: 'scale expansion - quality improvement - ecosystem reconstruction.' Companies need to focus on differentiated functions (such as AI design and environmentally friendly processes), cultivate vertical scenarios (such as weddings and commercial spaces), and address the challenges of homogeneous competition and technological iteration to seize market opportunities driven by policy, technology, and demand, and achieve sustainable development.

LPI (LP Information)' newest research report, the 'Event Decoration Service Industry Forecast' looks at past sales and reviews total world Event Decoration Service sales in 2025, providing a comprehensive analysis by region and market sector of projected Event Decoration Service sales for 2026 through 2032.
