The report requires updating with new data and is sent in 48 hours after order is placed.

The global Extruded Polystyrene Boards market size is predicted to grow from US$ 6224 million in 2025 to US$ 7742 million in 2031; it is expected to grow at a CAGR of 3.7% from 2025 to 2031.

Extruded polystyrene material is also used in crafts and model building, in particular architectural models. Because of the extrusion manufacturing process, XPS does not require facers to maintain its thermal or physical property performance. Thus, it makes a more uniform substitute for corrugated cardboard. It is more suitable to wetter environments than EPS.

In United States, Extruded Polystyrene Boards key players include DuPont, Owens Corning, Kingspan, etc.
