Field hockey is a team sport played on a grass or turf field. It is played using hockey sticks to shoot the ball and protective gear. International Hockey Federation (FIH) is the governing body of the sport. It also manages and develops international field hockey tournaments across the globe. Euro Hockey League (EHL) is considered to be the biggest professional league in the world. The Olympics and Hockey World Cup are considered to be the highest national teams' competition.

The sticks segment dominates the field hockey equipment market and will continue to grow significantly during the forecast period. The frequent changes of hockey sticks by regular players to maintain optimum performance is leading to the high growth of this market segment. Constant innovations to produce lighter and stronger sticks will also contribute to the growth of the overall market in the coming years.
