## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Plain sunglasses are glasses whose lenses have no power and are only used to block sunlight and ultraviolet rays without correcting vision. They are designed to protect the eyes from strong sunlight and reduce UV damage to the eyes during outdoor activities. Flat sunglasses usually have UV protection to prevent UV rays from damaging your eyes, and you can choose from different lens colors and styles according to your needs. This type of sunglasses is often worn by people in driving, outdoor activities, beach, skiing and other occasions to protect the eyes and increase comfort.
