Abstracts

The global Flexible Press market size is predicted to grow from US\$ million in 2025 to US\$ million in 2031; it is expected to grow at a CAGR of % from 2025 to 2031.

The impact of the latest U.S. tariff measures and the corresponding policy responses from countries worldwide on market competitiveness, regional economic performance, and supply chain configurations will be comprehensively evaluated in this report.

Flexible Press use fluid ink with strong fluidity. The ink is transferred from the ink bucket roller and the anilox roller to the graphic and text parts of the printing plate for inking. Then the printing pressure is applied by the roller to transfer the ink from the printing plate to the substrate, and finally the printing process is completed on the dry surface.
