Flushable toilet wet wipes, also known as flushable wipes, wet toilet wipes, or personal hygiene wipes, are pre-moistened wipes designed for personal cleaning and hygiene after using the toilet. These wipes are intended to provide a more thorough and refreshing cleaning experience compared to using dry toilet paper alone.

They are typically made from non-woven fabric materials and are pre-soaked in a solution that may include water, mild cleansing agents, and occasionally additional ingredients like aloe vera or vitamin E. These wipes are pre-moistened to provide a damp and refreshing cleansing experience, making them more effective at removing residue than dry toilet paper. Flushable toilet wet wipes are designed to be safely disposed of in the toilet. They are formulated to break down in water and not cause

clogs or blockages in plumbing systems.
