Abstracts

The global Golf Equipment market size is predicted to grow from US$ 5225 million in 2025 to US$ 6326 million in 2031; it is expected to grow at a CAGR of 3.2% from 2025 to 2031.

The impact of the latest U.S. tariff measures and the corresponding policy responses from countries worldwide on market competitiveness, regional economic performance, and supply chain configurations will be comprehensively evaluated in this report.

Golf equipment includes various items, which are used to play the sport of golf. These include golf balls, shoes, bags, golf gloves, golf gear, and golf wear, club, club head cover, cart, towels, tees, ball markers, wedges, putters, and other devices that help golfers in various ways.

Growing popularity of golf across the world amongst older people and spur in golf tourism is driving the growth of the golf equipment market. The physical activity that golf provides is expected to be helpful. Furthermore, among golfers, mental and physical well being, together with improved performance and socializing are common motivations for playing the sport. There is a spur in golf tourism mainly due to the growing number of golf courses across the world, and increasing popularity of golf tournaments. Various countries are taking initiatives to drive golf tourism in their region. For instance, the tourism minister in India announced that the government would support efforts to entice more foreign golfers to the country?s approximately 220 golf courses.The declining number of golfers across the world might hamper the growth of the golf equipment market. According to the National Golf Foundation (NGF) the players who played golf on an actual golf course in 2016 fell by a significant number compared to 2015. However, the NGF reported the number of golfers who are beginners increased to a significant extent over 2015. Furthermore, the NGF reported that the number of dedicated golfers also grew in numbers. Dedicated golfers include those who
