Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

The hair restoration service is a procedure in which the hair is moved from the back and/or sides of the scalp, where the hair is permanent (donor area), to the areas that are thinning or bald on the front, top, or crown of the scalp (recipient area). Once transplanted, the hair is likely to grow forever.

The growing popularity is expected to trigger a high growth rate for the market. Moreover, the increasing prevalence of various forms of dermatologic disorders is driving the market.

Over the next five years, LPI(LP Information) projects that Hair Restoration Services will register a xx% CAGR in terms of revenue, reach US\$ xx million by 2023, from US\$ xx million in 2017.

In this report, LP Information studies the present scenario (with the base year being 2017) and the growth prospects of global Hair Restoration Services market for 2018-2023.
