Abstracts

The global Halal Nail Polish market size is predicted to grow from US\$ million in 2025 to US\$ million in 2032; it is expected to grow at a CAGR of %from 2026 to 2032.

Halal Nail Polish refers to a nail lacquer that complies with Islamic dietary laws, ensuring it is free from prohibited ingredients such as alcohol and certain animal-derived substances. The formulation adheres to Halal principles, allowing Muslim individuals to wear nail polish while maintaining religious observances. These polishes are water-permeable, allowing Muslims to perform ablution (wudu) without the need to remove the nail polish, addressing a specific concern in Islamic practices.

The industry trend for Halal Nail Polish reflects a growing demand for inclusive beauty products that cater to diverse cultural and religious preferences. Brands are increasingly offering a wide range of colors and formulations in line with Halal standards, promoting inclusivity and addressing the needs of a global consumer base. As awareness of ethical and religious considerations in beauty products expands, the market for Halal Nail Polish is anticipated to continue its upward trajectory, driven by both Muslim consumers and individuals seeking cruelty-free and eco-friendly beauty options.
