Ham and bacon are both processed meat and common in Western countries. Ham is pork from a leg cut that has been preserved by wet or dry curing, with or without smoking. As a processed meat, the term 'ham' includes both whole cuts of meat and ones that have been mechanically formed. Bacon is a type of salt-cured pork. Bacon is prepared from several different cuts of meat, typically from the pork belly or from back cuts, which have less fat than the belly. It is eaten on its own, as a side dish (particularly in breakfasts), or used as a minor ingredient to flavour dishes.

The Ham and Bacon market is highly fragmented. The top 15 manufacturers held about 30% of the market share in 2019.
