The headlamp is strapped to the head or helmet with an elasticized strap. It is sometimes possible to completely disconnect a headlamp's battery pack, for storage on a belt or in a pocket. Lighter headlamp systems are strapped to the user's head by a single band; heavier ones utilize an additional band over the top of the user's head.

North America is the largest producer of Headlamps, with a market share more than 40%, followed by Europe and China, etc. Princeton Tec, Nitecore, Energizer, Coast and Browning are the top 5 manufacturers of industry, and they had about 50% combined market share.
