Abstracts

According to this study, the global Hospital Outsourcing market size will reach US\$ million by 2031.

Hospitals are increasingly outsourcing internal activities to third-party service providers such as medical billing and IT services. The hospitals are mainly outsourcing medical billing and IT services to third-party service providers due to a lack of expertise and the unavailability of skilled resources in the industry.

According to our research, the global market for medical devices is estimated at US\$ 603 billion in the year 2023, and will be growing at a CAGR of 5% during next six years. The global healthcare spending contributes to occupy 10% of the global GDP and is continuously rising in recent years due to the increasing health needs of the aging population, the growing prevalence of chronic and infectious diseases and the expansion of emerging markets. The medical devices market plays a significant role in the healthcare industry. The market is driven by several factors, including the increasing demand for advanced healthcare services globally, advancements in medical technology, growing geriatric population, rising healthcare expenditure, and increasing awareness about early disease diagnosis and treatment.
