Hospitality furniture is product you will find in a hotel, restaurant or a commercial setting within high-traffic areas. Examples of this include, but are not limited to; headboards, nightstands, coffee tables, vanities, entertainment units, dining tables, chairs, etc.

Hospitality furniture, unlike residential furniture, is known for its ability to resist wear and tear from constant use for long periods of time. Most importantly, it must undergo stability, durability, and weight testing to meet the commercial grade standards.

The COVID-19 outbreak has brought our world to a standstill with unparalleled and unforeseen impact in our lives, our economies, our societies and our livelihoods and there are growing risks of a global recession and a massive loss of jobs. UNWTO estimates international tourist arrivals could decline by 20% to 30% in 2020, which will have a great impact on the hospitality furniture industry.
