Abstracts

The global Hypersonic Systems and Enabling Technologies market size is predicted to grow from US\$ 13549 million in 2025 to US\$ 28896 million in 2032; it is expected to grow at a CAGR of 11.2% from 2026 to 2032.

Hypersonic systems and enabling technologies refer to system-level products, critical subsystems, and engineering services that enable controlled flight, maneuvering, rapid strike, rapid testing, or interception of high-speed threats at Mach 5 or above within the atmosphere or near-space environment. This study focuses on industrially relevant hypersonic glide systems, air-breathing hypersonic cruise systems, counter-hypersonic interceptors, hypersonic flight testbeds, propulsion systems, thermal protection structures, guidance and control, sensing and tracking, and engineering validation services. The core technical attributes include survivability under severe aerothermal loads, controllability across complex trajectories, high-temperature structural reliability, propulsion?thermal management integration, accelerated flight testing, and multi-domain detection and interception capability. Major applications include long-range precision strike, anti-ship strike, strategic and tactical deterrence, missile defense, high-speed ISR, space access, and future high-speed transportation.

Based on our research, the hypersonic industry should not be treated as a single-product market. It is a composite aerospace and defense value chain that includes prime weapon systems, glide vehicles, air-breathing propulsion, rocket motors, thermal protection, guidance and control, sensing and tracking, flight-test platforms, and counter-hypersonic interceptors. The revenue-generating part of the market is currently dominated by defense programs, while civilian high-speed transport and commercial hypersonic aircraft remain largely in the demonstration and early engineering phase.

For this reason, this report adopts a medium-to-narrow scope: companies are included when they have public evidence of industrial participation, but the revenue model only counts enterprise-level system, subsystem, testbed, propulsion, and engineering-service revenue that can be reasonably linked to hypersonic programs.

From a supply-side perspective, North America remains the most advanced region in terms of industrialization. U.S. companies cover the full chain from prime systems and scramjet propulsion to common glide bodies, rocket motors, reusable test vehicles, sensing, and counter-hypersonic defense. Europe is building its position around interceptor programs, sensors, and collaborative defense projects. China and Russia have significant strategic capabilities, but company-level revenue and product evidence are less transparent, so a conservative group-level approach is required. Japan, India, Israel, Australia, and South Korea are more project-led, with a smaller number of national champions or specialized suppliers driving local industrial participation.

Demand growth is being driven by three major forces. The first is long-range precision strike and anti-access capability, which supports investment in boost-glide vehicles, air-breathing cruise missiles, and lower-cost high-speed weapons. The second is counter-hypersonic defense, which increases demand for interceptors, radars, space-based tracking, command-and-control, and integrated air and missile defense architectures. The third is flight testing and validation, where companies such as Kratos, Stratolaunch, Hypersonix, Rocket Lab, and Ursa Major are gaining strategic relevance. Because hypersonic testing remains expensive, capacity-constrained, and technically risky, test vehicles and high-cadence flight-test services are likely to grow faster than many traditional prime-system revenue lines over the next few years.

From a technology-route perspective, boost-glide and air-breathing cruise systems are the two most important offensive architectures, while glide-phase and upper-terminal interceptors are becoming the core defensive response. Scramjets, ramjets, dual-mode ramjets, rotating detonation engines, solid rocket motors, and liquid rocket engines all play roles at different maturity levels. However, the decisive bottlenecks are not limited to speed. Thermal protection, high-temperature structures, electronics survivability, guidance reliability, manufacturability, and repeatable testing will determine whether programs can move from prototypes into production. Competitive advantage will increasingly depend on engineering iteration speed, test cadence, cost control, and resilient supply chains rather than headline Mach numbers alone.

The market outlook remains positive but volatile. Hypersonic spending is supported by defense budgets, geopolitical competition, and the need to defeat or counter advanced

missile threats, but revenue recognition can fluctuate with test outcomes, program delays, and procurement decisions. Large primes will retain advantages in classified integration, customer access, and system-level qualification, while specialized suppliers and startups may reshape parts of the value chain through reusable testbeds, lower-cost propulsion, additive manufacturing, and commercial-component strategies. Over the next five to seven years, the industry is likely to evolve from a small number of demonstrator programs into a layered ecosystem combining prime weapon systems, counter-hypersonic defense, high-speed testing infrastructure, and specialized propulsion and materials suppliers.

This report presents a comprehensive overview, market shares, and growth opportunities of Hypersonic Systems and Enabling Technologies market by product type, application, key players and key regions and countries.

Segmentation by Type:

Offensive Hypersonic Systems

Counter-Hypersonic Systems

Hypersonic Test and Evaluation Platforms

Enabling Subsystems

Other / Supporting Services

Segmentation by Flight Architecture:

Boost-Glide Vehicle

Air-Breathing Hypersonic Cruise Vehicle

Aeroballistic / Quasi-Ballistic System

Reusable Hypersonic Test Vehicle

Other / Classified Architecture

Segmentation by Enabling Technology:

Propulsion

Thermal Protection and High-Temperature Structures

Guidance, Navigation and Control

Sensors and Tracking

Testing, Simulation and Digital Engineering

Segmentation by Application:

Long-Range Precision Strike

Anti-Ship Strike

Missile Defense

High-Speed ISR

Space Access and Reentry

Future High-Speed Transport

This report also splits the market by region:

United States

China

Europe

Other regions

Japan

South Korea

Southeast Asia

Rest of world

The report also presents the market competition landscape and a corresponding detailed analysis of the major players in the market. The key players covered in this report:

Leidos Holdings, Inc. / Dynetics

Kratos Defense & Security Solutions, Inc.

Stratolaunch, LLC

Rocket Lab Corporation

Hypersonix Launch Systems

QinetiQ Group plc

Science Applications International Corporation

Peraton Inc.

CUBRC, Inc. / CUBRC Aerosciences

Calspan Corporation / TransDigm Group Incorporated

Bechtel Corporation / National Aerospace Solutions, LLC

KBR, Inc.

Jacobs Solutions Inc.

The Charles Stark Draper Laboratory, Inc.

Sierra Lobo, Inc.

Contents

1 SCOPE OF THE REPORT

- 1.1 Market Introduction
- 1.2 Years Considered
- 1.3 Research Objectives
- 1.4 Market Research Methodology
- 1.5 Research Process and Data Source
- 1.6 Economic Indicators
- 1.7 Currency Considered

2 EXECUTIVE SUMMARY

- 2.1 World Market Overview
 - 2.1.1 Global Hypersonic Systems and Enabling Technologies Market Size 2026-2032
 - 2.1.2 Hypersonic Systems and Enabling Technologies Market Size CAGR by Region
- 2.2 Hypersonic Systems and Enabling Technologies Segment by Type
 - 2.2.1 Offensive Hypersonic Systems
 - 2.2.2 Counter-Hypersonic Systems
 - 2.2.3 Hypersonic Test and Evaluation Platforms
 - 2.2.4 Enabling Subsystems
 - 2.2.5 Other / Supporting Services
 - 2.2.6 Hypersonic Systems and Enabling Technologies Market Size by Type
 - 2.2.6.1 Global Hypersonic Systems and Enabling Technologies Market Size Market Share by Type (2026-2032)
 - 2.2.6.2 Global Hypersonic Systems and Enabling Technologies Market Size Growth Rate by Type (2026-2032)
- 2.3 Hypersonic Systems and Enabling Technologies Segment by Flight Architecture
 - 2.3.1 Boost-Glide Vehicle
 - 2.3.2 Air-Breathing Hypersonic Cruise Vehicle
 - 2.3.3 Aeroballistic / Quasi-Ballistic System
 - 2.3.4 Reusable Hypersonic Test Vehicle
 - 2.3.5 Other / Classified Architecture
 - 2.3.6 Hypersonic Systems and Enabling Technologies Market Size by Flight Architecture
 - 2.3.6.1 Global Hypersonic Systems and Enabling Technologies Market Size Market Share by Flight Architecture (2026-2032)
 - 2.3.6.2 Global Hypersonic Systems and Enabling Technologies Market Size Growth

Rate by Flight Architecture (2026-2032)

2.4 Hypersonic Systems and Enabling Technologies Segment by Enabling Technology

2.4.1 Propulsion

2.4.2 Thermal Protection and High-Temperature Structures

2.4.3 Guidance, Navigation and Control

2.4.4 Sensors and Tracking

2.4.5 Testing, Simulation and Digital Engineering

2.4.6 Hypersonic Systems and Enabling Technologies Market Size by Enabling Technology

2.4.6.1 Global Hypersonic Systems and Enabling Technologies Market Size Market Share by Enabling Technology (2026-2032)

2.4.6.2 Global Hypersonic Systems and Enabling Technologies Market Size Growth Rate by Enabling Technology (2026-2032)

2.5 Hypersonic Systems and Enabling Technologies Segment by Application

2.5.1 Long-Range Precision Strike

2.5.2 Anti-Ship Strike

2.5.3 Missile Defense

2.5.4 High-Speed ISR

2.5.5 Space Access and Reentry

2.5.6 Future High-Speed Transport

2.5.7 Hypersonic Systems and Enabling Technologies Market Size by Application (2026-2032)

2.5.7.1 Global Hypersonic Systems and Enabling Technologies Market Size Market Share by Application (2026-2032)

2.5.7.2 Global Hypersonic Systems and Enabling Technologies Market Size Growth Rate by Application (2026-2032)

3 HYPERSONIC SYSTEMS AND ENABLING TECHNOLOGIES KEY PLAYERS

3.1 Date of Key Players Enter into Hypersonic Systems and Enabling Technologies

3.2 Key Players Hypersonic Systems and Enabling Technologies Product Offered

3.3 Key Players Hypersonic Systems and Enabling Technologies Funding/Investment Analysis

3.4 Funding/Investment

3.4.1 Funding/Investment by Regions

3.4.2 Funding/Investment by End-Industry

3.5 Key Players Hypersonic Systems and Enabling Technologies Valuation & Market Capitalization

3.6 Key Players Mergers & Acquisitions, Expansion Plans

- 3.7 Market Ranking
- 3.8 New Product/Technology Launches
- 3.9 Partnerships, Agreements, and Collaborations
- 3.10 Mergers and Acquisitions

4 HYPERSONIC SYSTEMS AND ENABLING TECHNOLOGIES BY REGIONS

- 4.1 Hypersonic Systems and Enabling Technologies Market Size by Regions (2026-2032)
- 4.2 United States Hypersonic Systems and Enabling Technologies Market Size Growth (2026-2032)
- 4.3 China Hypersonic Systems and Enabling Technologies Market Size Growth (2026-2032)
- 4.4 Europe Hypersonic Systems and Enabling Technologies Market Size Growth (2026-2032)
- 4.5 Rest of World Hypersonic Systems and Enabling Technologies Market Size Growth (2026-2032)

5 UNITED STATES

- 5.1 United States Hypersonic Systems and Enabling Technologies Market Size by Type (2026-2032)
- 5.2 United States Hypersonic Systems and Enabling Technologies Market Size by Application (2026-2032)

6 EUROPE

- 6.1 Europe Hypersonic Systems and Enabling Technologies Market Size by Type (2026-2032)
- 6.2 Europe Hypersonic Systems and Enabling Technologies Market Size by Application (2026-2032)

7 CHINA

- 7.1 China Hypersonic Systems and Enabling Technologies Market Size by Type (2026-2032)
- 7.2 China Hypersonic Systems and Enabling Technologies Market Size by Application (2026-2032)

8 REST OF WORLD

8.1 Rest of World Hypersonic Systems and Enabling Technologies Market Size by Type (2026-2032)

8.2 Rest of World Hypersonic Systems and Enabling Technologies Market Size by Application (2026-2032)

8.3 Japan

8.4 South Korea

8.5 Southeast Asia

9 MARKET DRIVERS, CHALLENGES AND TRENDS

9.1 Market Drivers & Growth Opportunities

9.2 Market Challenges & Risks

9.3 Industry Trends

10 KEY INVESTORS IN HYPERSONIC SYSTEMS AND ENABLING TECHNOLOGIES

10.1 Company A

10.1.1 Company A Company Details

10.1.2 Company Description

10.1.3 Companies Invested by Company A

10.1.4 Company A Key Development and Market Layout

10.2 Company B

10.2.1 Company B Company Details

10.2.2 Company Description

10.2.3 Companies Invested by Company B

10.2.4 Company B Key Development and Market Layout

10.3 Company C

10.3.1 Company C Company Details

10.3.2 Company Description

10.3.3 Companies Invested by Company C

10.3.4 Company C Key Development and Market Layout

10.4 Company D

10.5 ??

11 KEY PLAYERS ANALYSIS

11.1 Leidos Holdings, Inc. / Dynetics

- 11.1.1 Leidos Holdings, Inc. / Dynetics Company Details
- 11.1.2 Leidos Holdings, Inc. / Dynetics Hypersonic Systems and Enabling Technologies Product Offered
- 11.1.3 Leidos Holdings, Inc. / Dynetics Hypersonic Systems and Enabling Technologies Market Size (2025 VS 2031)
- 11.1.4 Leidos Holdings, Inc. / Dynetics Main Business Overview
- 11.1.5 Leidos Holdings, Inc. / Dynetics News
- 11.2 Kratos Defense & Security Solutions, Inc.
 - 11.2.1 Kratos Defense & Security Solutions, Inc. Company Details
 - 11.2.2 Kratos Defense & Security Solutions, Inc. Hypersonic Systems and Enabling Technologies Product Offered
 - 11.2.3 Kratos Defense & Security Solutions, Inc. Hypersonic Systems and Enabling Technologies Market Size (2025 VS 2031)
 - 11.2.4 Kratos Defense & Security Solutions, Inc. Main Business Overview
 - 11.2.5 Kratos Defense & Security Solutions, Inc. News
- 11.3 Stratolaunch, LLC
 - 11.3.1 Stratolaunch, LLC Company Details
 - 11.3.2 Stratolaunch, LLC Hypersonic Systems and Enabling Technologies Product Offered
 - 11.3.3 Stratolaunch, LLC Hypersonic Systems and Enabling Technologies Market Size (2025 VS 2031)
 - 11.3.4 Stratolaunch, LLC Main Business Overview
 - 11.3.5 Stratolaunch, LLC News
- 11.4 Rocket Lab Corporation
 - 11.4.1 Rocket Lab Corporation Company Details
 - 11.4.2 Rocket Lab Corporation Hypersonic Systems and Enabling Technologies Product Offered
 - 11.4.3 Rocket Lab Corporation Hypersonic Systems and Enabling Technologies Market Size (2025 VS 2031)
 - 11.4.4 Rocket Lab Corporation Main Business Overview
 - 11.4.5 Rocket Lab Corporation News
- 11.5 Hypersonix Launch Systems
 - 11.5.1 Hypersonix Launch Systems Company Details
 - 11.5.2 Hypersonix Launch Systems Hypersonic Systems and Enabling Technologies Product Offered
 - 11.5.3 Hypersonix Launch Systems Hypersonic Systems and Enabling Technologies Market Size (2025 VS 2031)
 - 11.5.4 Hypersonix Launch Systems Main Business Overview
 - 11.5.5 Hypersonix Launch Systems News

11.6 QinetiQ Group plc

11.6.1 QinetiQ Group plc Company Details

11.6.2 QinetiQ Group plc Hypersonic Systems and Enabling Technologies Product Offered

11.6.3 QinetiQ Group plc Hypersonic Systems and Enabling Technologies Market Size (2025 VS 2031)

11.6.4 QinetiQ Group plc Main Business Overview

11.6.5 QinetiQ Group plc News

11.7 Science Applications International Corporation

11.7.1 Science Applications International Corporation Company Details

11.7.2 Science Applications International Corporation Hypersonic Systems and Enabling Technologies Product Offered

11.7.3 Science Applications International Corporation Hypersonic Systems and Enabling Technologies Market Size (2025 VS 2031)

11.7.4 Science Applications International Corporation Main Business Overview

11.7.5 Science Applications International Corporation News

11.8 Peraton Inc.

11.8.1 Peraton Inc. Company Details

11.8.2 Peraton Inc. Hypersonic Systems and Enabling Technologies Product Offered

11.8.3 Peraton Inc. Hypersonic Systems and Enabling Technologies Market Size (2025 VS 2031)

11.8.4 Peraton Inc. Main Business Overview

11.8.5 Peraton Inc. News

11.9 CUBRC, Inc. / CUBRC Aerosciences

11.9.1 CUBRC, Inc. / CUBRC Aerosciences Company Details

11.9.2 CUBRC, Inc. / CUBRC Aerosciences Hypersonic Systems and Enabling Technologies Product Offered

11.9.3 CUBRC, Inc. / CUBRC Aerosciences Hypersonic Systems and Enabling Technologies Market Size (2025 VS 2031)

11.9.4 CUBRC, Inc. / CUBRC Aerosciences Main Business Overview

11.9.5 CUBRC, Inc. / CUBRC Aerosciences News

11.10 Calspan Corporation / TransDigm Group Incorporated

11.10.1 Calspan Corporation / TransDigm Group Incorporated Company Details

11.10.2 Calspan Corporation / TransDigm Group Incorporated Hypersonic Systems and Enabling Technologies Product Offered

11.10.3 Calspan Corporation / TransDigm Group Incorporated Hypersonic Systems and Enabling Technologies Market Size (2025 VS 2031)

11.10.4 Calspan Corporation / TransDigm Group Incorporated Main Business Overview

- 11.10.5 Calspan Corporation / TransDigm Group Incorporated News
- 11.11 Bechtel Corporation / National Aerospace Solutions, LLC
- 11.12 KBR, Inc.
- 11.13 Jacobs Solutions Inc.
