## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Immunity chews for dogs are specialized pet supplements designed to support and strengthen the immune system of canine companions. These chews typically contain a blend of vitamins, minerals, and antioxidants that are known to promote immune health in dogs. Ingredients may include vitamins such as C and E, zinc, probiotics, and various natural extracts with immune-boosting properties. The convenient chewable format makes it easy for pet owners to administer these supplements to their dogs, promoting overall well-being and helping to fortify the dog's defenses against common health challenges. Immunity chews are often used as a preventive measure to support dogs during periods of stress, illness, or as part of their daily wellness routine. The goal is to enhance the dog's immune response, contributing to a healthier and more resilient life for the furry companions.
