The report requires updating with new data and is sent in 48 hours after order is placed.

The global In-House Laundry Facility market size is predicted to grow from US$ million in 2025 to US$ million in 2031; it is expected to grow at a CAGR of %from 2025 to 2031.

Indoor laundry facilities refer to equipment and facilities located indoors for washing and cleaning clothes. With the fast pace of modern life and the process of urbanization, more and more people choose to do their laundry indoors, and indoor laundry facilities are therefore widely used. With the rise of the sharing economy, laundry service sharing has gradually attracted attention. In the future, there may be some shared laundry facilities that users can use by appointment or lease, so that urban residents can solve laundry problems in their busy lives.
