In-Wall Tank Toilets, also known as concealed cistern toilets or wall-hung toilets, are a type of toilet where the water tank is concealed within the wall, rather than being visible as a separate unit behind or beside the toilet bowl. These toilets typically have a sleek and modern appearance as they save space and create a clean aesthetic by hiding the cistern behind the wall. The toilet bowl is mounted directly to the wall, giving it a floating effect. In-wall toilets are often used in contemporary bathroom designs for their minimalist look and space-saving benefits.
