Abstracts

The global Infotainment Display Control Modules market size is predicted to grow from US\$ 14684 million in 2025 to US\$ 27163 million in 2032; it is expected to grow at a CAGR of 9.2% from 2026 to 2032.

In 2025, global Infotainment Display Control Module output reached about 250 million units and global capacity of around 320 million units. The average price is about USD 60 per unit, with gross margins near 34%. Infotainment Display Control Modules (IDCMs) are integrated electronic control units (ECUs) in modern vehicles that manage and process visual content displayed on in-vehicle screens, including center stack touchscreens, digital instrument clusters, and passenger displays; they combine high-performance processors (SoCs), graphics processing units (GPUs), memory (DRAM/NAND), display interface ICs (e.g., LVDS, eDP), operating systems (Android Automotive, QNX, Linux), and connectivity modules to deliver functions such as navigation, media playback, vehicle settings, and advanced HMI/UX features. The supply chain begins upstream with semiconductor vendors (e.g., automotive-grade SoCs, display drivers, memory), PCB and electronic component suppliers (capacitors, power management ICs), and display panel manufacturers (LCD/OLED); midstream consists of Tier 1 automotive electronics suppliers who design, integrate, and manufacture the modules (hardware + embedded software + system validation), often in collaboration with OEMs and software providers; downstream, automotive OEMs install these modules into vehicles and integrate them with broader vehicle networks (CAN, Ethernet) and cloud ecosystems, while aftersales services include software updates (OTA), diagnostics, and maintenance, forming a tightly coupled hardware?software?automotive value chain driven by increasing demand for digital cockpits and intelligent connected vehicles.

United States market for Infotainment Display Control Modules is estimated to increase from US\$ million in 2025 to US\$ million by 2032, at a CAGR of % from 2026 through 2032.

China market for Infotainment Display Control Modules is estimated to increase from US\$ million in 2025 to US\$ million by 2032, at a CAGR of % from 2026 through 2032.

Europe market for Infotainment Display Control Modules is estimated to increase from US\$ million in 2025 to US\$ million by 2032, at a CAGR of % from 2026 through 2032.

Global key Infotainment Display Control Modules players cover Bosch (Germany), Continental (Germany), DENSO (Japan), Visteon (USA), Harman (USA), etc. In terms of revenue, the global two largest companies occupied for a share nearly % in 2025.

LP Information, Inc. (LPI) ' newest research report, the "Infotainment Display Control Modules Industry Forecast" looks at past sales and reviews total world Infotainment Display Control Modules sales in 2025, providing a comprehensive analysis by region and market sector of projected Infotainment Display Control Modules sales for 2026 through 2032. With Infotainment Display Control Modules sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US\$ millions of the world Infotainment Display Control Modules industry.

This Insight Report provides a comprehensive analysis of the global Infotainment Display Control Modules landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyzes the strategies of leading global companies with a focus on Infotainment Display Control Modules portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms' unique position in an accelerating global Infotainment Display Control Modules market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Infotainment Display Control Modules and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Infotainment Display Control Modules.

This report presents a comprehensive overview, market shares, and growth opportunities of Infotainment Display Control Modules market by product type, application, key manufacturers and key regions and countries.

Segmentation by Type:

Single Display Control Modules

Dual Display Control Modules

Multi-Display Control Modules

Segmentation by Boot Time:

5?10 Seconds

3?5 Seconds

1?3 Seconds

Contents

1 SCOPE OF THE REPORT

- 1.1 Market Introduction
- 1.2 Years Considered
- 1.3 Research Objectives
- 1.4 Market Research Methodology
- 1.5 Research Process and Data Source
- 1.6 Economic Indicators
- 1.7 Currency Considered
- 1.8 Market Estimation Caveats

2 EXECUTIVE SUMMARY

- 2.1 World Market Overview
 - 2.1.1 Global Infotainment Display Control Modules Annual Sales 2021-2032
 - 2.1.2 World Current & Future Analysis for Infotainment Display Control Modules by Geographic Region, 2021, 2025 & 2032
 - 2.1.3 World Current & Future Analysis for Infotainment Display Control Modules by Country/Region, 2021, 2025 & 2032
- 2.2 Infotainment Display Control Modules Segment by Type
 - 2.2.1 Single Display Control Modules
 - 2.2.2 Dual Display Control Modules
 - 2.2.3 Multi-Display Control Modules
 - 2.2.4 Infotainment Display Control Modules Sales by Type
 - 2.2.4.1 Global Infotainment Display Control Modules Sales Market Share by Type (2021-2026)
 - 2.2.4.2 Global Infotainment Display Control Modules Revenue and Market Share by Type (2021-2026)
 - 2.2.4.3 Global Infotainment Display Control Modules Sale Price by Type (2021-2026)
- 2.3 Infotainment Display Control Modules Segment by Boot Time
 - 2.3.1 5?10 Seconds
 - 2.3.2 3?5 Seconds
 - 2.3.3 1?3 Seconds
 - 2.3.4
