The report requires updating with new data and is sent in 48 hours after order is placed.

According to our LPI (LP Information) latest study, the global Institutional Pension Services market size was valued at US\$ 261320 million in 2022. With growing demand in downstream market and recovery from influence of COVID-19 and the Russia-Ukraine War, the Institutional Pension Services is forecast to a readjusted size of US\$ 356410 million by 2029 with a CAGR of 4.5% during review period.

The research report highlights the growth potential of the global Institutional Pension Services market. With recovery from influence of COVID-19 and the Russia-Ukraine War, Institutional Pension Services are expected to show stable growth in the future market. However, product differentiation, reducing costs, and supply chain optimization remain crucial for the widespread adoption of Institutional Pension Services. Market players need to invest in research and development, forge strategic partnerships, and align their offerings with evolving consumer preferences to capitalize on the immense opportunities presented by the Institutional Pension Services market.

Elderly care institutions mainly include social welfare homes, elderly apartments, elderly rehabilitation institutions, nursing homes, palliative care institutions, etc. Elderly care institutions are organizations that provide full-time centralized accommodation and care services for the elderly in specialized facilities (nursing homes). Full time elderly care institutions can establish community elderly care service stations or provide home based elderly care services, but they should meet the standards for the establishment of full-time elderly care institutions.

Between 2015 and 2050, the proportion of the world's population over 60 years will

nearly double from 12% to 22%. Substantial increase in the geriatric population across the world has increased the demand for the pension service worldwide.
