The global Intelligent Solar PV Carport market size is predicted to grow from US\$ 230 million in 2025 to US\$ 557 million in 2032; it is expected to grow at a CAGR of 13.6% from 2026 to 2032.

Intelligent Solar PV Carport is a smart distributed energy infrastructure system that integrates photovoltaic power generation with intelligent monitoring, control, and energy management capabilities within a canopy structure deployed at the point of consumption. It utilizes solar PV as the primary energy source while incorporating digital control systems, IoT-based monitoring, and optional energy storage and electric vehicle charging functions to enable real-time energy optimization, system diagnostics, and adaptive power distribution. By emphasizing intelligent operation and data-driven energy management, it enhances on-site energy efficiency, reduces reliance on the conventional grid, and supports smart energy utilization in residential and commercial scenarios. The system combines parking shelter, renewable energy generation, and intelligent energy services into a scalable and flexible solution. Its advantages include real-time monitoring capability, optimized energy utilization, improved operational stability, flexible modular deployment, and enhanced asset value through intelligent energy services. In 2025, the industry's capacity utilization rate was about 65% and the average gross margin was approximately 28%. Upstream, photovoltaic modules and steel structural materials remain the core inputs, with suppliers such as LONGi, Trina Solar, JinkoSolar, First Solar, ArcelorMittal, and POSCO providing standardized generation units and structural frameworks. The midstream segment focuses on canopy structure engineering, intelligent PV system integration, load-bearing design, construction execution, and grid interconnection to ensure reliable operation under site-specific conditions. Downstream demand is primarily driven by residential and commercial scenarios, with representative customers including Vanke, Country Garden,

and Wanda Group.
