According to our LPI (LP Information) latest study, the global IT and BPO Services market size was valued at US$ million in 2023. With growing demand in downstream market, the IT and BPO Services is forecast to a readjusted size of US$ million by 2030 with a CAGR of % during review period.

The research report highlights the growth potential of the global IT and BPO Services market. IT and BPO Services are expected to show stable growth in the future market. However, product differentiation, reducing costs, and supply chain optimization remain crucial for the widespread adoption of IT and BPO Services. Market players need to invest in research and development, forge strategic partnerships, and align their offerings with evolving consumer preferences to capitalize on the immense opportunities presented by the IT and BPO Services market.

Business process outsourcing (BPO) is defined as a subset of outsourcing that involves the contracting of the operations and responsibilities of a specific business process to a third-party service provider. Often the business processes are information technology-based, and are referred to as ITES-BPO, where ITES stands for Information Technology Enabled Service.

IT and business process outsourcing (BPO) Services help organizations in creating, managing, and optimizing information and business processes with business and technical expertise. They also aid in managing IT systems and are process focused. These Services focus on providing a framework to structure IT-related activities.
