Jerky—beef, turkey, pork, to name a few—is a healthy snack due to its protein content, which can help fuel your rides and recovery. Jerky is lean trimmed meat that has been cut into strips and dried (dehydrated) to prevent spoilage. Normally, this drying includes the addition of salt to prevent bacteria growth before the meat has finished the dehydrating process.

The increasing demand for high-grade protein and intriguing flavors that provide quick energy to on-the-go consumers is expected to expand the scope of jerky snacks.
