Jet skiing is a popular recreational activity as it is immensely enjoyable and participants require no special training before hitting the waves. As with most water-based sports, there is more to hitting the waves than simply leaping onto the machine. In jet skiing safety is of paramount importance, and therefore, the participants should consider using life jackets and other equipment before getting started.

Jet ski is the activity of riding a shallow-draft and highly maneuverable, water-jet-propelled, aquatic craft. It is also known as personal watercraft and is one of the quickest and easiest ways to get that adrenaline buzz on water. Jet skiing can be done on both inland and coastal waters and either sitting or standing depending on the type of craft.
