Leveling String is used to mark the horizontal line during construction work. The easiest way to use leveling string is to hook it onto a nail. A nail with a leveling string hooked to it is driven shallowly into a block or concrete to secure it. Other uses include wrapping it around a board. Leveling string can be used to visualize a straight line between two points in the air, which is difficult to see. To make it easy to see even in an empty space, many colors, such as yellow and pink, are used.

Leveling string is available in a variety of materials and thicknesses.
