## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Live resin vape carts are cartridges filled with cannabis oil that has been extracted from fresh, frozen cannabis plants using a process that preserves the plant's natural terpenes and cannabinoids. This results in a more flavorful and potent vaping experience compared to traditional vape cartridges that use dried cannabis material. Live resin vape carts are known for their strong aroma, flavor, and effects.

The global Live Resin Vape Cart market size is projected to grow from US\$ million in 2023 to US\$ million in 2030; it is expected to grow at a CAGR of % from 2024 to 2030.
