M&A cyber due diligence is the process of evaluating the cybersecurity risks and vulnerabilities of a target company during a merger or acquisition. This involves assessing the target company's cybersecurity policies, procedures, infrastructure, and overall security posture to identify any potential risks that could impact the deal. The goal of M&A cyber due diligence is to identify any potential cybersecurity risks that could impact the value of the deal or pose a threat to the acquiring company's own security posture. By conducting a comprehensive assessment of the target company's cybersecurity practices, the acquiring company can make informed decisions about the deal and take steps to mitigate any identified risks.
