Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Dairy-free cheese is a natural alternative to the standard cheese, which is mainly produced from plant-based ingredients or sources such as different types of vegetables, soy, almond, cashews, starchy flours, potato, coconut, various nuts, and others. The increasing acceptance of the veganism trend among consumers is fuelling the market growth of vegan cheese around the world. These types of cheese are made from various types of proteins and vegetable fats and are thus free from any animal-based additive.
