Needleless infusion connectors are one of the important components of needleless infusion systems. These connectors eliminate the need for steel needles to pierce rubber stoppers and connect infusion sets or syringes to indwelling cannulas, including CVCs, PICCs, and peripheral intravenous catheters. The needle-based injection is changed to a needle-free injection system, and the sealing function of the infusion channel can still be maintained after the infusion set or syringe is disconnected. Needleless infusion connectors can avoid the use of needles for repeated punctures and reduce stabbing injuries to medical staff.

The global Mechanical Valve Needleless Infusion Connector market size is projected to grow from US\$ 130.1 million in 2023 to US\$ 191.9 million in 2030; it is expected to grow at a CAGR of 5.7% from 2024 to 2030.

With the strong support of my country's industrial policies, the disposable medical device industry has developed rapidly. Downstream clinical applications have increasingly stringent and diverse requirements for disposable medical devices. my country's disposable medical device market is in a state of full competition with many manufacturing companies. 'Volume-based procurement' is a major move of the Medical Insurance Bureau. It conducts centralized procurement of drugs and consumables on a 'national' basis with the purpose of 'exchanging quantity for price.' In the future, volume purchasing will continue to be implemented and become a general direction. Currently, the Guangdong Purchasing Alliance conducts centralized bulk purchasing of heparin caps and needleless connectors (needleless infusion connectors), and the Southwest Regional Alliance of Henan Province conducts centralized bulk purchasing of medical consumables (needleless infusion). Baihe Medical Technology (Wuhan) Co., Ltd., Beijing Volt Technology, B. Braun Medical (Shanghai) International Trade, BD Medical Equipment (Shanghai), Foshan Special Medical Catheters, Guangdong Aidi Medical Technology, Haolang Technology (Foshan), Haoningkang Medical Equipment, Henan Tuoren Best Medical Equipment, Jiakang Medical Equipment (Qingdao), Shandong Ande Medical Supplies, etc. have all participated in centralized mass procurement.
