Abstracts

According to this study, the global Medical Spa market size will reach US$ 43480 million by 2031.

Medical spas have become more popular in recent years for men and women alike. Medical spas, also called medi-spas or med spas, are a kind of a hybrid between the traditional day spa and a medical clinic.

According to our research, the global market for medical devices is estimated at US$ 603 billion in the year 2023, and will be growing at a CAGR of 5% during next six years. The global healthcare spending contributes to occupy 10% of the global GDP and is continuously rising in recent years due to the increasing health needs of the aging population, the growing prevalence of chronic and infectious diseases and the expansion of emerging markets. The medical devices market plays a significant role in the healthcare industry. The market is driven by several factors, including the increasing demand for advanced healthcare services globally, advancements in medical technology, growing geriatric population, rising healthcare expenditure, and increasing awareness about early disease diagnosis and treatment.

LPI (LP Information)' newest research report, the “Medical Spa Industry Forecast” looks at past sales and reviews total world Medical Spa sales in 2024, providing a comprehensive analysis by region and market sector of projected Medical Spa sales for 2025 through 2031.
