Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Meetings, incentives, conventions, and exhibitions or MICE represents a sector of tourism that includes business events and activities. Travelers attending MICE activities have a purpose beyond leisure tourism, and are in fact business travelers. These business travelers are connected to different sectors of the tourism and hospitality industry through their MICE activities. In general, MICE events are events and activities that involve attendees who share a common interest and gather in a place. The place for the gathering needs to be a venue arranged beforehand. The venue will provide space and facilities necessary to satisfy the needs of those who attend the gathering. Asia-Pacific is expected to be the fastest growing segment during the forecast period, owing to the rapid growth in the business travel sector in recent decades. Furthermore, economic growth, regional cooperation, intellectual development, and high penetration of internet & technology in the densely populated countries are expected to boost the market growth in the region. Penetration of IoT supports both travelers and travel operators in managing different operations related to business travel such as planning, booking, and being updated with the current status of their travel program.

According to this study, over the next five years the Meetings, Incentives, Conferences and Exhibitions (MICE) market will register a xx% CAGR in terms of revenue, the global market size will reach US\$ xx million by 2023, from US\$ xx million in 2017.
