The global Natural Sea Salt Body Scrub market size is predicted to grow from US\$ million in 2025 to US\$ million in 2032; it is expected to grow at a CAGR of %from 2026 to 2032.

Scrub refers to an emulsified skin cleanser containing uniform and fine particles. It is mainly used to remove dirt deep in the skin. By rubbing on the skin, it can peel off aging scaly cuticles and remove dead skin. Therefore, when choosing, you must try to see whether the frosted particles are smooth and whether they are too hard.

The body scrub market size is expected to grow from USD 2.17 billion in 2023 to USD 2.77 billion in 2028, registering a CAGR of 4.99% during the forecast period (2023-2028). Body scrub or body exfoliator, body gloss or body scrub is a skin care product whose primary function is to remove dead skin cells through exfoliation, cleanse the skin and increase blood circulation in the body. Scrub market manufacturers do not always use natural ingredients and may contain chemical compounds in their formulas. Sometimes, certain chemicals are too harsh for certain skin types, and consumers may face complications. Hence, this limitation may hinder the growth of chemical scrubs in the coming years. To cope with adverse situations, manufacturers are focusing on developing remedies with more natural, herbal and organic ingredients. Also, keep in mind the particle size of the powder scrub so that vigorous scrubbing does not lead to redness and rashes. In addition, as consumers' awareness of personal hygiene increases, consumers prefer new products that help maintain personal hygiene and clean skin. Products claiming to enhance skin contours are becoming increasingly important in the market, resulting in many product launches. For example, in June 2022, the company Plum BodyLovin operates in the market launched a new range of body care products, including body scrubs. Plum BodyLovin" Minions Goin" Banana Body

Scrub is said to be made with walnut powder, oat oil and biodegradable cellulose beads to help keep skin smooth and healthy.
