Abstracts

The global Navigation Electronic Map Data market size is predicted to grow from US\$ 8178 million in 2025 to US\$ 16340 million in 2032; it is expected to grow at a CAGR of 10.0% from 2026 to 2032.

Navigation Electronic Map Data refers to structured geospatial datasets collected, compiled, topologically connected, semantically encoded and continuously updated to support positioning, map matching, destination search, route calculation, turn-by-turn guidance, lane guidance and multimodal journey planning. The market covers navigable road networks, pedestrian paths, cycling infrastructure, public transport routes and stops, commercial-vehicle restrictions, addresses, points of interest, building entrances, parking facilities, traffic regulations, lane models and related 2D, 2.5D and 3D navigation attributes. Its principal product forms include road-vehicle navigation map data, pedestrian and micromobility navigation data, public-transport and multimodal data, ADAS map data, and high-definition automated-driving map data. Products are delivered through embedded databases, regional map packages, map tiles, APIs, cloud data feeds or hybrid onboard-cloud architectures. Commercial value is determined by geographic coverage, navigable topology, semantic accuracy, data freshness, localization, regulatory compliance and the ability to reuse a common database across vehicles, mobile applications, logistics platforms and intelligent-driving systems.

Key Findings

Asia-Pacific accounted for approximately 38% of global Navigation Electronic Map Data revenue in 2025

Standard navigation map data represented approximately 63% of functional-level

market revenue

Cloud-based online delivery held about 47% share while hybrid delivery reached approximately 31%

Three-dimensional navigation map data accounted for approximately 18% of market revenue

Competition remains regionally concentrated with global platforms and local map specialists coexisting

Market Trends

Navigation Electronic Map Data is evolving from separately maintained road and point-of-interest databases into unified, multilayer location-data platforms. A common geographic foundation can now support vehicle navigation, walking, cycling, public transport, commercial fleets, ADAS and automated-driving applications, while different products are generated through differentiated topology, accuracy, attributes and update frequencies. Road-level navigation remains the commercial foundation, but lane models, three-dimensional road structures, indoor-outdoor continuity, accessibility information, electric-vehicle attributes and intelligent-driving content are becoming increasingly important. Delivery architecture is also shifting from periodic full-database releases toward modular cloud distribution, incremental updates and hybrid onboard-cloud deployment. Industry standards such as NDS increasingly support conventional navigation, electronic horizon, ADAS and high-definition map content within interoperable data structures. The long-term direction is therefore not a complete replacement of standard navigation maps, but the transformation of the map database into a continuously updated location-data foundation capable of serving multiple transport modes and automated vehicle functions.

Market Dynamics

Drivers

Market demand is supported by the continued expansion of embedded vehicle navigation, mobile location services, logistics digitalization, multimodal transport planning and intelligent-driving functions. Each downstream application requires a routable network rather than a simple visual basemap, creating sustained demand for topology, turn restrictions, addresses, points of interest, lane connections and vehicle-

specific road attributes. Growth in connected vehicles and smartphones also allows suppliers to collect probe data, identify road changes and distribute incremental updates more efficiently. Electric vehicles require charging locations, energy-aware routing and range-related road attributes, while commercial fleets need vehicle dimensions, weight restrictions and logistics facilities. Pedestrian, cycling and public-transport applications add further demand for paths, station entrances, transfer connections, accessibility attributes and first- or last-mile routing.

Restraints

Navigation Electronic Map Data requires substantial and recurring investment in surveying, imagery, address and point-of-interest maintenance, topology construction, semantic coding, quality verification and regional localization. The economics favor suppliers that can reuse a common data foundation across customers and applications, creating significant scale barriers for new entrants. Geographic-information regulation, map-review requirements and restrictions on collecting or transferring vehicle-generated location data further limit cross-border replication. In markets with strict mapping qualifications and security controls, global platforms frequently need local production entities or licensed partners. Free consumer navigation also places downward pressure on the perceived value of basic map content, while enterprise and automotive customers require long support periods, high availability and extensive customization without necessarily paying separately for every data layer.

Opportunities

The strongest opportunities lie in extending established navigation databases into higher-value data layers and specialized applications. Lane-level navigation, electronic horizon, ADAS attributes, high-definition road geometry and three-dimensional intersections can increase revenue per vehicle or enterprise customer. Pedestrian accessibility, cycling safety, micromobility restrictions and multimodal transfer data remain less standardized than conventional road navigation and offer room for regional specialists. Commercial-vehicle maps can differentiate through height, weight, axle-load, hazardous-material and road-access restrictions, while electric-vehicle maps require charging-station detail and energy-aware routing. Indoor parking, airports, railway stations, campuses and commercial venues create additional demand for seamless indoor-outdoor navigation. Modular APIs and hybrid deployment also enable automakers and digital platforms to purchase map content while retaining control of their own navigation engines, interfaces and customer relationships.

Challenges

The principal challenge is maintaining consistency among road-level, lane-level, three-dimensional, indoor, dynamic and automated-driving data layers that may be collected through different technologies and updated at different frequencies. Crowdsourced observations and vehicle-probe data improve freshness but require validation, privacy controls and compliance with geographic-information regulations. Interoperability remains difficult because map suppliers, navigation engines, vehicle operating systems and downstream applications often use proprietary formats and attribute definitions. Industry standards reduce integration costs but do not eliminate differences in regional content, quality thresholds or customer requirements. Suppliers must also allocate investment between mature standard-navigation content and faster-growing ADAS or high-definition products whose commercial models continue to evolve. Open-map ecosystems can lower basic data acquisition costs, but commercial suppliers must still demonstrate superior accuracy, coverage, support and liability management.

Value Chain Analysis

The upstream value chain consists of satellite and aerial imagery, mapping vehicles, GNSS and inertial positioning, government road and public-transport information, address and point-of-interest sources, vehicle-probe data, user feedback and open geographic datasets. These inputs differ in positional accuracy, licensing rights, update frequency and geographic coverage. The critical production task is not simply collecting geographic objects, but converting them into a connected and routable network with correct directional relationships, access rules, lane structures and semantic attributes. Continuous comparison among field surveys, authoritative records, partner data and crowdsourced observations is required to detect road openings, closures, regulatory changes and facility updates.

Midstream suppliers perform topology construction, semantic coding, localization, quality control, format conversion, map compilation, cloud hosting and incremental-update management. The resulting products are delivered as databases, data layers, regional packages, tiles, APIs or streaming services. Downstream customers include automakers, Tier 1 suppliers, navigation software developers, mobile platforms, logistics and fleet operators, public-transport applications, micromobility companies and intelligent-driving system providers. Value creation depends on data reuse: a shared road, address and point-of-interest foundation can support multiple products, while each navigation mode requires specialized topology and routing costs. Profitability improves with geographic scale and platform reuse but is reduced by manual verification, regional

surveys, customer-specific engineering, regulatory compliance and long-term maintenance obligations.

Segment Insights

By navigation mode, road-vehicle navigation map data represented approximately 36% of market revenue in 2025 and remained the largest individual segment, supported by passenger vehicles, commercial fleets, motorcycles and embedded navigation systems. ADAS and automated-driving map data accounted for approximately 27% and represented the principal premium segment because of its higher semantic density, lane-level content and update requirements. Personal and micromobility navigation data accounted for approximately 24%, reflecting the broad use of pedestrian, cycling and location applications. Public-transport and multimodal navigation data represented approximately 13%, with value concentrated in route, stop, timetable, transfer and first- or last-mile connectivity information. These segments share underlying geographic content but require different networks, restrictions and route-cost models.

By functional and accuracy level, standard navigation map data accounted for approximately 63% of revenue in 2025 because it supports the broadest range of vehicle, mobile and enterprise applications. Lane-level and ADAS map data represented approximately 25%, while high-definition and automated-driving map data accounted for approximately 12%. By delivery architecture, cloud-based online map data held approximately 47%, hybrid map data approximately 31%, and embedded or offline data approximately 22%. Offline deployment remains important where network availability is uncertain, while cloud delivery improves freshness and scalability. Hybrid architectures are gaining importance in automotive and professional navigation because they combine local reliability with incremental cloud updates. Two-dimensional and 2.5D data remained dominant, while three-dimensional navigation data accounted for approximately 18% and was concentrated in premium automotive, complex urban, parking and indoor-navigation applications.

Downstream Market Opportunities

Vehicle navigation remains a major downstream opportunity, but incremental value is increasingly generated by lane-level guidance, electric-vehicle routing, commercial-vehicle restrictions and continuous map updates rather than basic turn-by-turn navigation alone. Mobile and web platforms require pedestrian, cycling, transit and place data that can be monetized through APIs and enterprise subscriptions. Logistics and fleet customers value accurate addresses, access points, loading facilities, vehicle

restrictions and route optimization. Public-transport and multimodal applications require reliable transfer relationships and walking connections, while accessibility navigation creates demand for elevators, stairs, crossings, gradients and barrier-free paths. ADAS and automated-driving customers represent a higher-value opportunity through curvature, slope, lane topology, traffic signs, road boundaries and localization features. Parking facilities, airports, stations, campuses and large commercial venues provide additional opportunities for indoor-outdoor continuity and three-dimensional navigation.

Regional Insights

Asia-Pacific accounted for approximately 38% of global revenue in 2025, supported by large automotive and mobile-navigation user bases, rapid connected-vehicle adoption and strong domestic mapping platforms. China, Japan, South Korea and India each maintain distinct local map ecosystems because of language, address structures, road complexity, regulatory requirements and OEM relationships. China places particular emphasis on mapping qualifications, data security and map review, while Japan and South Korea retain specialized automotive map providers with detailed domestic databases. India and Southeast Asia offer opportunities for suppliers capable of improving address precision, offline coverage, two-wheeler routing, logistics data and locally adapted navigation.

North America represented approximately 31% of revenue, reflecting the high commercial value of enterprise map APIs, mobile platforms, logistics applications and automated-driving development. Europe accounted for approximately 25% and is characterized by multinational automotive programs, cross-border routing, transport-mode integration and demand for regulatory road attributes. Other regions represented approximately 6%, with opportunities concentrated in localized road mapping, address development, commercial-vehicle navigation and urban mobility platforms. Regional competition is shaped less by basic software availability than by the ability to maintain accurate local content, comply with geographic-data rules and integrate with established vehicle, mobile and public-transport ecosystems.

Competitive Landscape Analysis

The Navigation Electronic Map Data market is regionally concentrated but structurally broader than the vehicle-navigation map market alone. Global platforms compete through multinational coverage, cloud infrastructure, APIs, standardized delivery and the ability to support several transport modes from a shared database. Automotive specialists differentiate through vehicle-grade quality, long lifecycle support, lane and

ADAS attributes and established OEM relationships. Regional platforms retain advantages in local addresses, road regulations, languages, public-transport data, government compliance and frequently updated points of interest. Competition therefore occurs across several layers: ownership and maintenance of the underlying map database, specialized navigation-mode content, cloud delivery, software integration and continuous updates. Suppliers such as HERE and TomTom emphasize globally scalable automotive and enterprise platforms, while Toyota Mapmaster and other regional specialists rely on detailed domestic data and customer relationships. Mappls illustrates the opportunity for locally developed platforms to combine automotive, pedestrian, trucking, enterprise API and high-definition content. The market is moving toward unified databases and modular products, but regulatory localization and regional data depth continue to prevent a single platform from achieving uniform dominance across all countries and applications.

Report Scope

LPI (LP Information)' newest research report, the "Navigation Electronic Map Data Industry Forecast" looks at past sales and reviews total world Navigation Electronic Map Data sales in 2025, providing a comprehensive analysis by region and market sector of projected Navigation Electronic Map Data sales for 2026 through 2032. With Navigation Electronic Map Data sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US\$ millions of the world Navigation Electronic Map Data industry.

This Insight Report provides a comprehensive analysis of the global Navigation Electronic Map Data landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyses the strategies of leading global companies with a focus on Navigation Electronic Map Data portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms' unique position in an accelerating global Navigation Electronic Map Data market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Navigation Electronic Map Data and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Navigation Electronic Map Data.

This report presents a comprehensive overview, market shares, and growth opportunities of Navigation Electronic Map Data market by product type, application, key players and key regions and countries.

Market Segmentation

Segmentation by Type:

Standard Definition Navigation Map Data

Lane-Level Navigation Map Data

High-Definition Map Data

Segmentation by Spatial Representation:

2D and 2.5D Navigation Map Data

3D Navigation Map Data

Segmentation by Delivery Architecture:

Embedded and Offline Map Data

Cloud-Based Online Map Data

Hybrid Map Data

Segmentation by Application:

In-Vehicle Navigation

Pedestrian and Accessible Navigation

Cycling and Micromobility Navigation

Public Transport and Multimodal Journey Planning

Commercial Vehicle and Fleet Navigation

ADAS and Automated Driving

Indoor, Parking and Venue Navigation

Map APIs and Location-Based Applications

This report also splits the market by region:

Americas

United States

Canada

Mexico

Brazil

APAC

China

Japan

Korea

Southeast Asia

India

Australia

Europe

Germany

France

UK

Italy

Russia

Middle East & Africa

Egypt

South Africa

Israel

Turkey

GCC Countries

The below companies that are profiled have been selected based on inputs gathered from primary experts and analyzing the company's coverage, product portfolio, its market penetration.

HERE Technologies

TomTom

ZENRIN

Toyota Mapmaster

Hyundai AutoEver

Mappers

Mapbox

GeoTechnologies

Trimble Maps

CE Info Systems Limited (Mappls & MapmyIndia)

Kakao Mobility

TMAP Mobility

Dynamic Map Platform

1 SCOPE OF THE REPORT

- 1.1 Market Introduction
- 1.2 Years Considered
- 1.3 Research Objectives
- 1.4 Market Research Methodology
- 1.5 Research Process and Data Source
- 1.6 Economic Indicators
- 1.7 Currency Considered
- 1.8 Market Estimation Caveats

2 EXECUTIVE SUMMARY

- 2.1 World Market Overview
 - 2.1.1 Global Navigation Electronic Map Data Market Size (2021-2032)
 - 2.1.2 Navigation Electronic Map Data Market Size CAGR by Region (2021 VS 2025 VS 2032)
 - 2.1.3 World Current & Future Analysis for Navigation Electronic Map Data by Country/Region (2021, 2025 & 2032)
- 2.2 Navigation Electronic Map Data Segment by Type
 - 2.2.1 Standard Definition Navigation Map Data
 - 2.2.2 Lane-Level Navigation Map Data
 - 2.2.3 High-Definition Map Data
 - 2.2.4 Navigation Electronic Map Data Market Size by Type
 - 2.2.4.1 Navigation Electronic Map Data Market Size CAGR by Type (2021 VS 2025 VS 2032)
 - 2.2.4.2 Global Navigation Electronic Map Data Market Size Market Share by Type (2021-2026)
- 2.3 Navigation Electronic Map Data Segment by Spatial Representation
 - 2.3.1 2D and 2.5D Navigation Map Data
 - 2.3.2 3D Navigation Map Data
 - 2.3.3 Navigation Electronic Map Data Market Size by Spatial Representation
 - 2.3.3.1 Navigation Electronic Map Data Market Size CAGR by Spatial Representation (2021 VS 2025 VS 2032)
 - 2.3.3.2 Global Navigation Electronic Map Data Market Size Market Share by Spatial Representation (2021-2026)
- 2.4 Navigation Electronic Map Data Segment by Delivery Architecture

2.4.1 Embedded and Offline Map Data

2.4.2 Cloud-Based Online Map Data

2.4.3 Hybrid Map Data

2.4.4 Navigation Electronic Map Data Market Size by Delivery Architecture

2.4.4.1 Navigation Electronic Map Data Market Size CAGR by Delivery Architecture
(2021 VS 2025 VS 2032)

2.4.4.2 Global Navigation Electronic Map Data Market Size Market Share by Delivery
Architecture (2021-2026)

2.5 Navigation Electronic Map Data Segment by Application

2.5.1 In-Vehicle Navigation

2.5.2 Pedestrian and Accessible Navigation

2.5.3 Cycling and Micromobility Navigation

2.5.4 Public Transport and Multimodal Journey Planning

2.5.5 Commercial Vehicle and Fleet Navigation

2.5.6 ADAS and Automated Driving

2.5.7 Indoor, Parking and Venue Navigation

2.5.8 Map APIs and Location-Based Applications

2.5.9 Navigation Electronic Map Data Market Size by Application

2.5.9.1 Navigation Electronic Map Data Market Size CAGR by Application (2021 VS
2025 VS 2032)

2.5.9.2 Global Navigation Electronic Map Data Market Size Market Share by
Application (2021-2026)

3 NAVIGATION ELECTRONIC MAP DATA MARKET SIZE BY PLAYER

3.1 Navigation Electronic Map Data Market Size Market Share by Player

3.1.1 Global Navigation Electronic Map Data Revenue by Player (2021-2026)

3.1.2 Global Navigation Electronic Map Data Revenue Market Share by Player
(2021-2026)

3.2 Global Navigation Electronic Map Data Key Players Head office and Products
Offered

3.3 Market Concentration Rate Analysis

3.3.1 Competition Landscape Analysis

3.3.2 Concentration Ratio (CR3, CR5 and CR10) & (2024-2026)

3.4 New Products and Potential Entrants

3.5 Mergers & Acquisitions, Expansion

4 NAVIGATION ELECTRONIC MAP DATA BY REGION

- 4.1 Navigation Electronic Map Data Market Size by Region (2021-2026)
- 4.2 Global Navigation Electronic Map Data Annual Revenue by Country/Region (2021-2026)
- 4.3 Americas Navigation Electronic Map Data Market Size Growth (2021-2026)
- 4.4 APAC Navigation Electronic Map Data Market Size Growth (2021-2026)
- 4.5 Europe Navigation Electronic Map Data Market Size Growth (2021-2026)
- 4.6 Middle East & Africa Navigation Electronic Map Data Market Size Growth (2021-2026)

5 AMERICAS

- 5.1 Americas Navigation Electronic Map Data Market Size by Country (2021-2026)
- 5.2 Americas Navigation Electronic Map Data Market Size by Type (2021-2026)
- 5.3 Americas Navigation Electronic Map Data Market Size by Application (2021-2026)
- 5.4 United States
- 5.5 Canada
- 5.6 Mexico
- 5.7 Brazil

6 APAC

- 6.1 APAC Navigation Electronic Map Data Market Size by Region (2021-2026)
- 6.2 APAC Navigation Electronic Map Data Market Size by Type (2021-2026)
- 6.3 APAC Navigation Electronic Map Data Market Size by Application (2021-2026)
- 6.4 China
- 6.5 Japan
- 6.6 South Korea
- 6.7 Southeast Asia
- 6.8 India
- 6.9 Australia

7 EUROPE

- 7.1 Europe Navigation Electronic Map Data Market Size by Country (2021-2026)
- 7.2 Europe Navigation Electronic Map Data Market Size by Type (2021-2026)
- 7.3 Europe Navigation Electronic Map Data Market Size by Application (2021-2026)
- 7.4 Germany
- 7.5 France
- 7.6 UK

7.7 Italy

7.8 Russia

8 MIDDLE EAST & AFRICA

8.1 Middle East & Africa Navigation Electronic Map Data by Region (2021-2026)

8.2 Middle East & Africa Navigation Electronic Map Data Market Size by Type (2021-2026)

8.3 Middle East & Africa Navigation Electronic Map Data Market Size by Application (2021-2026)

8.4 Egypt

8.5 South Africa

8.6 Israel

8.7 Turkey

8.8 GCC Countries

9 MARKET DRIVERS, CHALLENGES AND TRENDS

9.1 Market Drivers & Growth Opportunities

9.2 Market Challenges & Risks

9.3 Industry Trends

10 GLOBAL NAVIGATION ELECTRONIC MAP DATA MARKET FORECAST

10.1 Global Navigation Electronic Map Data Forecast by Region (2027-2032)

10.1.1 Global Navigation Electronic Map Data Forecast by Region (2027-2032)

10.1.2 Americas Navigation Electronic Map Data Forecast

10.1.3 APAC Navigation Electronic Map Data Forecast

10.1.4 Europe Navigation Electronic Map Data Forecast

10.1.5 Middle East & Africa Navigation Electronic Map Data Forecast

10.2 Americas Navigation Electronic Map Data Forecast by Country (2027-2032)

10.2.1 United States Market Navigation Electronic Map Data Forecast

10.2.2 Canada Market Navigation Electronic Map Data Forecast

10.2.3 Mexico Market Navigation Electronic Map Data Forecast

10.2.4 Brazil Market Navigation Electronic Map Data Forecast

10.3 APAC Navigation Electronic Map Data Forecast by Region (2027-2032)

10.3.1 China Navigation Electronic Map Data Market Forecast

10.3.2 Japan Market Navigation Electronic Map Data Forecast

10.3.3 Korea Market Navigation Electronic Map Data Forecast

- 10.3.4 Southeast Asia Market Navigation Electronic Map Data Forecast
- 10.3.5 India Market Navigation Electronic Map Data Forecast
- 10.3.6 Australia Market Navigation Electronic Map Data Forecast
- 10.4 Europe Navigation Electronic Map Data Forecast by Country (2027-2032)
 - 10.4.1 Germany Market Navigation Electronic Map Data Forecast
 - 10.4.2 France Market Navigation Electronic Map Data Forecast
 - 10.4.3 UK Market Navigation Electronic Map Data Forecast
 - 10.4.4 Italy Market Navigation Electronic Map Data Forecast
 - 10.4.5 Russia Market Navigation Electronic Map Data Forecast
- 10.5 Middle East & Africa Navigation Electronic Map Data Forecast by Region (2027-2032)
 - 10.5.1 Egypt Market Navigation Electronic Map Data Forecast
 - 10.5.2 South Africa Market Navigation Electronic Map Data Forecast
 - 10.5.3 Israel Market Navigation Electronic Map Data Forecast
 - 10.5.4 Turkey Market Navigation Electronic Map Data Forecast
- 10.6 Global Navigation Electronic Map Data Forecast by Type (2027-2032)
- 10.7 Global Navigation Electronic Map Data Forecast by Application (2027-2032)
 - 10.7.1 GCC Countries Market Navigation Electronic Map Data Forecast

11 KEY PLAYERS ANALYSIS

11.1 HERE Technologies

- 11.1.1 HERE Technologies Company Information
- 11.1.2 HERE Technologies Navigation Electronic Map Data Product Offered
- 11.1.3 HERE Technologies Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)
- 11.1.4 HERE Technologies Main Business Overview
- 11.1.5 HERE Technologies Latest Developments

11.2 TomTom

- 11.2.1 TomTom Company Information
- 11.2.2 TomTom Navigation Electronic Map Data Product Offered
- 11.2.3 TomTom Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)
- 11.2.4 TomTom Main Business Overview
- 11.2.5 TomTom Latest Developments

11.3 ZENRIN

- 11.3.1 ZENRIN Company Information
- 11.3.2 ZENRIN Navigation Electronic Map Data Product Offered
- 11.3.3 ZENRIN Navigation Electronic Map Data Revenue, Gross Margin and Market

Share (2021-2026)

11.3.4 ZENRIN Main Business Overview

11.3.5 ZENRIN Latest Developments

11.4 Toyota Mapmaster

11.4.1 Toyota Mapmaster Company Information

11.4.2 Toyota Mapmaster Navigation Electronic Map Data Product Offered

11.4.3 Toyota Mapmaster Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.4.4 Toyota Mapmaster Main Business Overview

11.4.5 Toyota Mapmaster Latest Developments

11.5 Hyundai AutoEver

11.5.1 Hyundai AutoEver Company Information

11.5.2 Hyundai AutoEver Navigation Electronic Map Data Product Offered

11.5.3 Hyundai AutoEver Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.5.4 Hyundai AutoEver Main Business Overview

11.5.5 Hyundai AutoEver Latest Developments

11.6 Mappers

11.6.1 Mappers Company Information

11.6.2 Mappers Navigation Electronic Map Data Product Offered

11.6.3 Mappers Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.6.4 Mappers Main Business Overview

11.6.5 Mappers Latest Developments

11.7 Mapbox

11.7.1 Mapbox Company Information

11.7.2 Mapbox Navigation Electronic Map Data Product Offered

11.7.3 Mapbox Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.7.4 Mapbox Main Business Overview

11.7.5 Mapbox Latest Developments

11.8 GeoTechnologies

11.8.1 GeoTechnologies Company Information

11.8.2 GeoTechnologies Navigation Electronic Map Data Product Offered

11.8.3 GeoTechnologies Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.8.4 GeoTechnologies Main Business Overview

11.8.5 GeoTechnologies Latest Developments

11.9 Trimble Maps

- 11.9.1 Trimble Maps Company Information
- 11.9.2 Trimble Maps Navigation Electronic Map Data Product Offered
- 11.9.3 Trimble Maps Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)
- 11.9.4 Trimble Maps Main Business Overview
- 11.9.5 Trimble Maps Latest Developments
- 11.10 CE Info Systems Limited (Mappls & MapmyIndia)
 - 11.10.1 CE Info Systems Limited (Mappls & MapmyIndia) Company Information
 - 11.10.2 CE Info Systems Limited (Mappls & MapmyIndia) Navigation Electronic Map Data Product Offered
 - 11.10.3 CE Info Systems Limited (Mappls & MapmyIndia) Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)
 - 11.10.4 CE Info Systems Limited (Mappls & MapmyIndia) Main Business Overview
 - 11.10.5 CE Info Systems Limited (Mappls & MapmyIndia) Latest Developments
- 11.11 Kakao Mobility
 - 11.11.1 Kakao Mobility Company Information
 - 11.11.2 Kakao Mobility Navigation Electronic Map Data Product Offered
 - 11.11.3 Kakao Mobility Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)
 - 11.11.4 Kakao Mobility Main Business Overview
 - 11.11.5 Kakao Mobility Latest Developments
- 11.12 TMAP Mobility
 - 11.12.1 TMAP Mobility Company Information
 - 11.12.2 TMAP Mobility Navigation Electronic Map Data Product Offered
 - 11.12.3 TMAP Mobility Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)
 - 11.12.4 TMAP Mobility Main Business Overview
 - 11.12.5 TMAP Mobility Latest Developments
- 11.13 Dynamic Map Platform
 - 11.13.1 Dynamic Map Platform Company Information
 - 11.13.2 Dynamic Map Platform Navigation Electronic Map Data Product Offered
 - 11.13.3 Dynamic Map Platform Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)
 - 11.13.4 Dynamic Map Platform Main Business Overview
 - 11.13.5 Dynamic Map Platform Latest Developments

11.18.4 Google LLC Main Business Overview

11.18.5 Google LLC Latest Developments

11.19 Apple

11.19.1 Apple Company Information

11.19.2 Apple Navigation Electronic Map Data Product Offered

11.19.3 Apple Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.19.4 Apple Main Business Overview

11.19.5 Apple Latest Developments

11.20 Navmii

11.20.1 Navmii Company Information

11.20.2 Navmii Navigation Electronic Map Data Product Offered

11.20.3 Navmii Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.20.4 Navmii Main Business Overview

11.20.5 Navmii Latest Developments

11.21 Mobileye

11.21.1 Mobileye Company Information

11.21.2 Mobileye Navigation Electronic Map Data Product Offered

11.21.3 Mobileye Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.21.4 Mobileye Main Business Overview

11.21.5 Mobileye Latest Developments

11.22 Yandex

11.22.1 Yandex Company Information

11.22.2 Yandex Navigation Electronic Map Data Product Offered

11.22.3 Yandex Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.22.4 Yandex Main Business Overview

11.22.5 Yandex Latest Developments

11.23 2GIS

11.23.1 2GIS Company Information

11.23.2 2GIS Navigation Electronic Map Data Product Offered

11.23.3 2GIS Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.23.4 2GIS Main Business Overview

11.23.5 2GIS Latest Developments

11.24 NAVER Corporation

11.24.1 NAVER Corporation Company Information

11.24.2 NAVER Corporation Navigation Electronic Map Data Product Offered

11.24.3 NAVER Corporation Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.24.4 NAVER Corporation Main Business Overview

11.24.5 NAVER Corporation Latest Developments

11.25 Shenzhen Careland Technology Co., Ltd.

11.25.1 Shenzhen Careland Technology Co., Ltd. Company Information

11.25.2 Shenzhen Careland Technology Co., Ltd. Navigation Electronic Map Data Product Offered

11.25.3 Shenzhen Careland Technology Co., Ltd. Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.25.4 Shenzhen Careland Technology Co., Ltd. Main Business Overview

11.25.5 Shenzhen Careland Technology Co., Ltd. Latest Developments

11.26 Amap Software Co., Ltd.

11.26.1 Amap Software Co., Ltd. Company Information

11.26.2 Amap Software Co., Ltd. Navigation Electronic Map Data Product Offered

11.26.3 Amap Software Co., Ltd. Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.26.4 Amap Software Co., Ltd. Main Business Overview

11.26.5 Amap Software Co., Ltd. Latest Developments

11.27 Beijing Changdiwanfang Technology Co., Ltd

11.27.1 Beijing Changdiwanfang Technology Co., Ltd Company Information

11.27.2 Beijing Changdiwanfang Technology Co., Ltd Navigation Electronic Map Data Product Offered

11.27.3 Beijing Changdiwanfang Technology Co., Ltd Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.27.4 Beijing Changdiwanfang Technology Co., Ltd Main Business Overview

11.27.5 Beijing Changdiwanfang Technology Co., Ltd Latest Developments

11.28 Beijing NavInfo Co., Ltd.

11.28.1 Beijing NavInfo Co., Ltd. Company Information

11.28.2 Beijing NavInfo Co., Ltd. Navigation Electronic Map Data Product Offered

11.28.3 Beijing NavInfo Co., Ltd. Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.28.4 Beijing NavInfo Co., Ltd. Main Business Overview

11.28.5 Beijing NavInfo Co., Ltd. Latest Developments

11.29 Tencent Dadi Tongtu

11.29.1 Tencent Dadi Tongtu Company Information

11.29.2 Tencent Dadi Tongtu Navigation Electronic Map Data Product Offered

11.29.3 Tencent Dadi Tongtu Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.29.4 Tencent Dadi Tongtu Main Business Overview

11.29.5 Tencent Dadi Tongtu Latest Developments

11.30 Langge Technology

11.30.1 Langge Technology Company Information

11.30.2 Langge Technology Navigation Electronic Map Data Product Offered

11.30.3 Langge Technology Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.30.4 Langge Technology Main Business Overview

11.30.5 Langge Technology Latest Developments

11.31 CICV Data

11.31.1 CICV Data Company Information

11.31.2 CICV Data Navigation Electronic Map Data Product Offered

11.31.3 CICV Data Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.31.4 CICV Data Main Business Overview

11.31.5 CICV Data Latest Developments

11.32 KUANDENG

11.32.1 KUANDENG Company Information

11.32.2 KUANDENG Navigation Electronic Map Data Product Offered

11.32.3 KUANDENG Navigation Electronic Map Data Revenue, Gross Margin and Market Share (2021-2026)

11.32.4 KUANDENG Main Business Overview

11.32.5 KUANDENG Latest Developments

12 RESEARCH FINDINGS AND CONCLUSION

I would like to order

Product name: Global Navigation Electronic Map Data Market Growth (Status and Outlook) 2026-2032

Product link: <https://marketpublishers.com/r/G19AD281F9E3EN.html>

Price: US\$ 3,660.00 (Single User License / Electronic Delivery)

If you want to order Corporate License or Hard Copy, please, contact our Customer Service:

info@marketpublishers.com

Payment

To pay by Credit Card (Visa, MasterCard, American Express, PayPal), please, click button on product page <https://marketpublishers.com/r/G19AD281F9E3EN.html>
