The report requires updating with new data and is sent in 48 hours after order is placed.

Newsprint Paper is a low-cost, non-archival paper consisting mainly of wood pulp and most commonly used to print newspapers and other publications and advertising material. Newsprint is favored by publishers and printers as it is relatively low cost (compared with paper grades used for glossy magazines and sales brochures), strong (to run through modern high-speed web printing presses) and can accept four-color printing at qualities that meet the needs of typical newspapers.

LPI (LP Information)' newest research report, the “Newsprint Paper Industry Forecast” looks at past sales and reviews total world Newsprint Paper sales in 2022, providing a comprehensive analysis by region and market sector of projected Newsprint Paper sales for 2023 through 2029.
