Nickel-based anti-seize is a nickel-based formulation suitable for use on all metals, especially stainless steel. It is free of copper, lead, sulfide and chloride. This premium high temperature lubricant protects metal-to-metal applications from seizure and wear caused by high temperatures, heavy loads, vibration, chemicals and corrosion. Safe to use with most copper-labile chemicals. Nickel anti-seize has very high temperature resistance and excellent chemical resistance. Regular application of nickel anti-seize will improve performance and prolong equipment life.
