## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

There are also safety issues involved with glare when traveling at night. If you are traveling in a low-light single carriage road with no additional streetlights, the glare from an approaching vehicle can blind you and cause you to lose control of your car. This is where nighttime driving glasses come into play. Their lenses are equipped with a tinted yellowish hue that protects your eyes from the excessive light that may blind you while driving at night.
