The off-highway mining dump truck is a heavy-duty dump truck used in open-pit mines to complete the task of stripping rock and earth and transporting ore, and is characterised by its short journey and heavy load, often loaded with a large electric or hydraulic shovel, to and from the extraction and unloading points. The term 'off-road' here does not mean off-road driving, but only that it is not allowed to drive on the road due to its extra wide profile and extra mass.
