Europe market for Online Car Auctions is estimated to increase from US\$ million in 2022 to US\$ million by 2029, at a CAGR of % from 2023 through 2029.

Global key Online Car Auctions players cover IAA,Inc(SYNETIQ Limited), Copart, RAW2K, Manheim, Silverlake, LeadLocate, ACV Auctions, Copart Middle East and Pickles Auctions, etc. In terms of revenue, the global two largest companies occupied for a share nearly % in 2022.

Online auctions are home to a wide range of vehicles for sale, and many of these models include damaged and light damaged cars. The exact nature of the damage in question can vary between technical, electronic or body damage, and can range from light to severe. Much of stock includes accident damaged cars that have been involved in road collisions or similar impacts. For the most lightly damaged cars, these accidents may only have affected the paint or bodywork, whereas more serious collisions could

have lasting effects on the powertrain or underlying structure of the vehicle. A very small minority may include flood or fire damaged cars. While certain customers, such as first time buyers, might not find much use for these sorts of vehicles, damaged cars can be an invaluable source of spare parts for customers with more specialist mechanical experience. This type of vehicle can also encompass damaged repairable cars, which can be restored to full working condition.
