nline Transcription Software and Service is the process of converting a recording or live audio into a text file or document in just one click. It is much more versatile and it uses speech recognition technology to produce transcripts at outstanding quality and accuracy. It can help boost productivity and otherwise help with customer engagement.

Online Transcription Software is an intelligent tool with AI speech recognition, Online Transcription means that the software has an online editor that allows you to transcribe your audio to the text in its online text editor in which you can easily edit your transcriptions. You can import audio or video files in many different formats and export your transcription, in Text, SRT, or Word formats.

It can also store all notes in one central, secure, and accessible place.

Online Transcription Service works through a mix of Artificial Intelligence and Human Intelligence. The online transcription is produced in-house automatic speech recognition (ASR) machine. Once the draft is produced, professional human transcribes fact check the technology’s work in real time to deliver fully accurate voice to text transcription.
