## Abstracts

The report requires updating with new data and is sent in 48 hours after order is placed.

Online trauma therapy services provide individuals with the opportunity to receive therapy and support for trauma-related issues from the comfort of their own home. These services typically involve virtual therapy sessions with a licensed therapist who specializes in trauma treatment. Online therapy allows individuals to access support from anywhere with an internet connection, making it easier for those with busy schedules or mobility issues to receive the help they need. Online therapy sessions can be conducted in a private setting, allowing individuals to discuss sensitive issues without the fear of being overheard or judged. Online therapy services can be particularly beneficial for individuals who live in remote areas or have limited access to in-person therapy options. Online therapy sessions can be scheduled at times that are convenient for the individual, making it easier to fit therapy into their daily routine.

The global Online Trauma Therapy Service market size is projected to grow from US\$ million in 2024 to US\$ million in 2030; it is expected to grow at a CAGR of % from 2024 to 2030.
