The so-called virtual tourism refers to the use of virtual reality technology to build a virtual three-dimensional three-dimensional tourism environment through simulation or surreal scenery based on the real tourism landscape. The scenery and beautiful scenery far away thousands of miles away, the image is vivid, detailed and vivid. Virtual travel is one of the application areas of vrp-travel virtual travel platform technology. The three-dimensional simulation of the scene is realized by computer technology, and the operator can feel the destination scene with the help of certain technical means.

In 2022, the gradual relaxation of epidemic prevention and control measures around the world will have a positive impact on the rapid recovery of the tourism industry. According to data from the World Tourism Organization, the number of global travelers exceeded 900 million in 2022, a two-fold increase compared to 2021. In 2022, international tourism revenue returned to the US\$ 1 trillion, a real increase of 50% compared with 2021. According to data from the Ministry of Culture and Tourism of China, in 2022, the total number of domestic tourists was ? 2.53 billion, and the domestic tourism revenue (total tourism consumption) was ? 2 trillion.
