Abstracts

According to this study, the global Organic Bedding market size will reach US\$ 1234 million by 2031.

Organic Bedding are made from eco-friendly and nontoxic materials like organic cotton, bamboo, linen, and Tencel. Organic bedding is a healthier option manufactured without harmful chemicals, and organic cotton specifically is healthier for the planet. It takes less water to produce organic cotton compared to conventional, and organic cotton isn't treated with the toxic chemical pesticides or harsh chemical cleaners and fabric treatments that conventional bedding can be exposed to.

Growing awareness about importance of sleep and its impact on health as well as increasing demand for high end bedding products impacted by the growing inclination towards luxurious lifestyles among consumers contributing to the growth of the market.
