Derived from either rice or rice wine, rice vinegar is used as a condiment in Asia and other continents extensively. Since its acidity quotient is lower than other types of vinegar, it is not suitable for preserving and pickling foods. However, it is used extensively as a condiment with salads and several meat based dishes. Rice vinegar adds a subtle flavour to the dishes, but it also offers you a number of health benefits.

Organic Rice Vinegar is brewed slowly and meticulously, using traditional techniques developed and perfected. This is an ancient process that uses only the highest grade organic rice to create a vinegar with rich substance and body.
