The global Outdoor Floor Decoration Materials market size is predicted to grow from US\$ million in 2025 to US\$ million in 2032; it is expected to grow at a CAGR of %from 2026 to 2032.

The main driving factors for outdoor floor decoration materials are the following:

**Environmental protection and sustainable development:** As people's awareness of environmental protection increases, the use of environmentally friendly materials has become a trend. Therefore, environmentally friendly and sustainable outdoor floor decoration materials are favored by more and more people.

**Durability and weather resistance:** Outdoor floor decoration materials need to be able to withstand the effects of the natural environment, such as sunlight, rain, snow, etc. Therefore, durability and weather resistance are important considerations when choosing outdoor floor covering materials.

**Beauty and texture:** Outdoor floor decoration materials must not only be practical, but also have beauty and texture. People are paying more and more attention to the beauty and comfort of the outdoor environment, so choosing outdoor floor decoration materials with beautiful appearance and texture can improve the quality of the outdoor environment.

**Cost and cost-effectiveness:** When choosing outdoor floor decoration materials, cost and cost-effectiveness are also factors that need to be considered. On the premise of ensuring quality and beauty, choosing lower-cost decorative materials can reduce decoration costs and improve cost performance.

Construction and Maintenance: The construction and maintenance of outdoor floor covering materials are also factors to consider. If the construction is difficult or the maintenance cost is high, its promotion and use in practical applications may be affected.
