Abstracts

The global Outdoor Navigation Beacon System market size is predicted to grow from US\$ 2093 million in 2025 to US\$ 7832 million in 2032; it is expected to grow at a CAGR of 20.9% from 2026 to 2032.

Outdoor navigation beacon system refers to a positioning and navigation system that deploys fixed or mobile beacons, anchors, gateways, tags, or hybrid positioning nodes in outdoor or indoor-outdoor environments to provide location references, route guidance, area identification, asset tracking, and navigation assistance for people, vehicles, robots, and equipment. The research scope mainly covers systems based on BLE, UWB, terrestrial RF beacons, GNSS-assisted positioning, and multi-technology fusion architectures integrating GNSS, UWB, BLE, IMU, or related positioning signals. Core system capabilities are typically evaluated through positioning accuracy, effective beacon coverage radius, update frequency, navigation latency, number of deployed beacons, coverage area, supported tracked objects, wireless communication distance, battery life, protection rating, operating temperature, positioning availability, and indoor-outdoor continuity. According to positioning accuracy, systems can be categorized into region-level, meter-level, sub-meter, and centimeter-level solutions, while deployment architectures range from low-density wide-area networks to dense high-precision positioning networks. Major applications include industrial manufacturing and logistics, transportation and ports, mining and construction, robotics and autonomous systems, tourism and sports, public safety, defense, energy, and other outdoor positioning environments.

Key Findings

UWB drives centimeter-level high-precision outdoor positioning.

BLE maintains its advantage for large-scale deployments requiring low power consumption.

Hybrid positioning enhances the continuity of indoor-outdoor navigation.

Industrial logistics remains a core commercial application area.

Robotics drives the demand for low-latency, high-frequency positioning.

Outdoor deployments are accelerating the adoption of devices with high ingress protection ratings.

Industry Trends

Outdoor navigation beacon systems are evolving from simple signal-based zone identification and proximity detection toward high-precision, multi-technology hybrid positioning. BLE continues to serve applications prioritizing low power consumption, low cost, and large-scale deployment, while UWB is rapidly penetrating scenarios requiring sub-meter or centimeter-level positioning, low latency, and high-precision ranging. At the system level, technologies such as GNSS, UWB, BLE, and IMU are being combined to ensure continuous positioning as personnel, vehicles, or equipment move across open outdoor areas, semi-enclosed industrial spaces, storage yards, terminals, tunnels, and obstructed environments. Another significant shift is the expansion of application requirements from static asset identification to real-time navigation for vehicles, robots, personnel, and unmanned equipment; customers increasingly prioritize update frequency, seamless indoor-outdoor transitions, communication range, outdoor weather resistance, remote device management, and connectivity with industrial control and fleet management platforms. Long-term technological development will focus on hybrid positioning, edge computing, intelligent fusion algorithms, high-density deployment in key areas, and the deep integration of positioning data with business operational decision-making systems.

Market Dynamics

Drivers

Market demand is primarily driven by the limitations of traditional GNSS regarding positioning accuracy and continuity in complex outdoor environments, alongside the

growing corporate need for real-time visualization of personnel, vehicles, and equipment. Industrial parks, ports, mining sites, construction sites, logistics yards, transportation hubs, and energy facilities require real-time tracking of workers, vehicles, tools, and mobile equipment to improve safety management, scheduling efficiency, asset utilization, and route management. The proliferation of outdoor robots, unmanned vehicles, inspection equipment, and autonomous systems further increases the demand for low-latency, high-update-frequency positioning. UWB and hybrid positioning technologies also enable more precise geofencing, collision avoidance, hazard zone management, and navigation assistance. As wireless chip costs decrease, battery performance improves, edge computing capabilities strengthen, and IoT platforms become widespread, the economic viability of deploying large-scale beacon networks is improving.

Limiting Factors

Market growth is constrained by factors such as outdoor wireless propagation environments, deployment costs, maintenance complexity, and variations in positioning performance across different sites. Metal structures, moving vehicles, buildings, vegetation, terrain, multipath reflections, and non-line-of-sight (NLOS) propagation can all degrade ranging quality; some scenarios require increased anchor density or multi-source fusion algorithms. High-precision UWB systems typically require denser infrastructure than basic BLE beacon networks, resulting in higher costs for installation, calibration, networking, and maintenance. Battery-powered outdoor beacons also necessitate trade-offs between broadcast frequency, communication range, update rates, and battery life. Large-scale campuses may further require gateways, backhaul networks, edge servers, and integration with enterprise IT and operational systems. In applications where positioning accuracy requirements are less stringent, GNSS can meet needs at a lower infrastructure cost, thereby limiting the commercial viability of high-density beacon systems.

Market Opportunities

Significant future market opportunities lie in continuous indoor-outdoor positioning, autonomous equipment, industrial storage yards, smart ports, mines, and large-scale distributed infrastructure. Fusing GNSS, UWB, BLE, and inertial sensing technologies can address complex positioning environments where single technologies struggle to provide stable coverage. Robotics and autonomous systems represent particularly attractive opportunities; their navigation, human-machine collaboration safety, fleet management, and geofencing capabilities all rely on low-latency, highly repeatable location data. Large logistics and manufacturing campuses can use beacon networks to link outdoor storage yards with indoor factories and warehouses, enabling unified

visibility of assets and vehicles. Features such as solar power, ultra-long-life batteries, IP67/IP68 protection, edge computing, and remote device management can also reduce the long-term operating costs of distributed deployments. As positioning systems increasingly integrate with digital twins, smart cities, the Industrial IoT, and operational analytics, the value of outdoor navigation beacon systems will expand beyond simple navigation to encompass productivity, safety, and operational optimization.

Industry Risks and Challenges

The primary industry challenge is maintaining stable positioning accuracy across highly diverse outdoor environments. Performance in open, line-of-sight environments can differ significantly from actual results in industrial yards, ports, mines, construction sites, or urban areas prone to multipath interference; consequently, service providers must balance infrastructure density, positioning accuracy, update frequency, battery life, communication range, and total system cost. Interoperability presents a significant challenge; as customers often employ a mix of GNSS, BLE, UWB, Wi-Fi, RFID, cellular, and proprietary positioning technologies, capabilities regarding data interfaces, device management, time synchronization, cybersecurity, and enterprise platform connectivity are becoming increasingly critical. Large-scale projects also require long-term calibration, hardware replacement, firmware upgrades, and maintenance frameworks. For mission-critical navigation, customers prioritize not only point-level accuracy but also system availability, redundancy, and the ability to maintain positioning continuity during system failures.

Industry Chain Analysis

The upstream segment of the outdoor navigation beacon system industry chain primarily comprises UWB and BLE chips, GNSS modules, inertial sensors, antennas, RF components, microcontrollers, batteries, power management devices, protective housings, embedded software, and communication modules. UWB chip performance directly impacts ranging accuracy and power consumption, whereas BLE solutions prioritize low power consumption, deployment costs, and compatibility. Outdoor applications also necessitate waterproof and dustproof housings, wide-temperature-range components, long-life batteries, solar or fixed power supplies, and reliable network backhaul. Positioning algorithm providers deliver core capabilities such as ranging, multilateration, filtering, sensor fusion, map matching, and trajectory optimization.

The midstream segment consists primarily of beacon manufacturers, RTLS platform

providers, positioning system integrators, and navigation solution providers. Value creation is shifting from standalone hardware to encompass deployment design, system calibration, positioning algorithms, device management, open APIs, real-time visualization, and integration with customer business systems. The downstream market spans sectors such as industrial manufacturing, logistics, ports, mining, construction, energy, transportation, robotics, tourism, public services, and defense. Key revenue models include hardware sales, system integration, software licensing, subscriptions, cloud platform services, installation and maintenance, and professional services. As beacon hardware becomes increasingly standardized, competitive advantage is shifting toward positioning performance, system reliability, fusion algorithms, system integration capabilities, and full-lifecycle services.

Downstream Market Opportunities

Industrial manufacturing and logistics offer substantial application opportunities; factories, storage yards, warehouses, and distribution centers require unified location management for personnel, vehicles, tools, pallets, and autonomous equipment. Similarly, ports and transportation infrastructure require capabilities for vehicle dispatching, container tracking, coordination of loading and unloading equipment, and safety zone management. The mining, construction, and energy sectors are placing greater emphasis on ruggedized hardware capable of withstanding harsh outdoor conditions, as well as on wide-area positioning, personnel safety, and equipment tracking. Robotics and autonomous systems represent areas with significant growth potential, where high position update rates and low latency enable capabilities such as navigation, fleet coordination, human-machine collaboration, and geofencing. Meanwhile, sectors including tourism, outdoor sports, campus management, public safety, and emergency response generate demand for route guidance and personnel positioning; additionally, the defense and critical infrastructure sectors offer new market opportunities for high-availability positioning systems designed for GNSS-denied or contested environments.

Report Scope

LPI (LP Information)' newest research report, the "Outdoor Navigation Beacon System Industry Forecast" looks at past sales and reviews total world Outdoor Navigation Beacon System sales in 2025, providing a comprehensive analysis by region and market sector of projected Outdoor Navigation Beacon System sales for 2026 through 2032. With Outdoor Navigation Beacon System sales broken down by region, market sector and sub-sector, this report provides a detailed analysis in US\$ millions of the

world Outdoor Navigation Beacon System industry.

This Insight Report provides a comprehensive analysis of the global Outdoor Navigation Beacon System landscape and highlights key trends related to product segmentation, company formation, revenue, and market share, latest development, and M&A activity. This report also analyses the strategies of leading global companies with a focus on Outdoor Navigation Beacon System portfolios and capabilities, market entry strategies, market positions, and geographic footprints, to better understand these firms' unique position in an accelerating global Outdoor Navigation Beacon System market.

This Insight Report evaluates the key market trends, drivers, and affecting factors shaping the global outlook for Outdoor Navigation Beacon System and breaks down the forecast by Type, by Application, geography, and market size to highlight emerging pockets of opportunity. With a transparent methodology based on hundreds of bottom-up qualitative and quantitative market inputs, this study forecast offers a highly nuanced view of the current state and future trajectory in the global Outdoor Navigation Beacon System.

This report presents a comprehensive overview, market shares, and growth opportunities of Outdoor Navigation Beacon System market by product type, application, key players and key regions and countries.

Market Segmentation

Segmentation by Type:

Short-Range Type (Beacon Coverage Radius ? 30 Meters)

Medium-Range Type (Beacon Coverage Radius 30–100 Meters)

Long-Range Type (Beacon Coverage Radius > 100 Meters)

Segmentation by Location Update Frequency:

Low-Frequency Navigation

Real-Time Navigation

High-Dynamic Navigation

Segmentation by Deployment Density:

Low-Density Type

Medium-Density Type

High-Density Type

Segmentation by Application:

Industrial Manufacturing and Logistics

Energy Industry

National Defense

Others

This report also splits the market by region:

Americas

United States

Canada

Mexico

Brazil

APAC

China

Japan

Korea

Southeast Asia

India

Australia

Europe

Germany

France

UK

Italy

Russia

Middle East & Africa

Egypt

South Africa

Israel

Turkey

GCC Countries

The below companies that are profiled have been selected based on inputs gathered from primary experts and analyzing the company's coverage, product portfolio, its

market penetration.

WISER Systems

Zebra Technologies

Link Labs

Inpixon

Siemens

KINEXON

Ubisense

Quuppa

Pozyx

Sewio Networks

Eliko

IDENTEC SOLUTIONS

Actility

Litum

Minew

Feasycom

TSINGOAL

Murata Manufacturing

Pinmicro

Contents

1 SCOPE OF THE REPORT

- 1.1 Market Introduction
- 1.2 Years Considered
- 1.3 Research Objectives
- 1.4 Market Research Methodology
- 1.5 Research Process and Data Source
- 1.6 Economic Indicators
- 1.7 Currency Considered
- 1.8 Market Estimation Caveats

2 EXECUTIVE SUMMARY

2.1 World Market Overview

- 2.1.1 Global Outdoor Navigation Beacon System Market Size (2021-2032)
- 2.1.2 Outdoor Navigation Beacon System Market Size CAGR by Region (2021 VS 2025 VS 2032)
- 2.1.3 World Current & Future Analysis for Outdoor Navigation Beacon System by Country/Region (2021, 2025 & 2032)

2.2 Outdoor Navigation Beacon System Segment by Type

- 2.2.1 Short-Range Type (Beacon Coverage Radius ? 30 Meters)
- 2.2.2 Medium-Range Type (Beacon Coverage Radius 30–100 Meters)
- 2.2.3 Long-Range Type (Beacon Coverage Radius > 100 Meters)
- 2.2.4 Outdoor Navigation Beacon System Market Size by Type
 - 2.2.4.1 Outdoor Navigation Beacon System Market Size CAGR by Type (2021 VS 2025 VS 2032)
 - 2.2.4.2 Global Outdoor Navigation Beacon System Market Size Market Share by Type (2021-2026)

2.3 Outdoor Navigation Beacon System Segment by Location Update Frequency

- 2.3.1 Low-Frequency Navigation
- 2.3.2 Real-Time Navigation
- 2.3.3 High-Dynamic Navigation
- 2.3.4 Outdoor Navigation Beacon System Market Size by Location Update Frequency
 - 2.3.4.1 Outdoor Navigation Beacon System Market Size CAGR by Location Update Frequency (2021 VS 2025 VS 2032)
 - 2.3.4.2 Global Outdoor Navigation Beacon System Market Size Market Share by Location Update Frequency (2021-2026)

2.4 Outdoor Navigation Beacon System Segment by Deployment Density

2.4.1 Low-Density Type

2.4.2 Medium-Density Type

2.4.3 High-Density Type

2.4.4 Outdoor Navigation Beacon System Market Size by Deployment Density

2.4.4.1 Outdoor Navigation Beacon System Market Size CAGR by Deployment Density (2021 VS 2025 VS 2032)

2.4.4.2 Global Outdoor Navigation Beacon System Market Size Market Share by Deployment Density (2021-2026)

2.5 Outdoor Navigation Beacon System Segment by Application

2.5.1 Industrial Manufacturing and Logistics

2.5.2 Energy Industry

2.5.3 National Defense

2.5.4 Others

2.5.5 Outdoor Navigation Beacon System Market Size by Application

2.5.5.1 Outdoor Navigation Beacon System Market Size CAGR by Application (2021 VS 2025 VS 2032)

2.5.5.2 Global Outdoor Navigation Beacon System Market Size Market Share by Application (2021-2026)

3 OUTDOOR NAVIGATION BEACON SYSTEM MARKET SIZE BY PLAYER

3.1 Outdoor Navigation Beacon System Market Size Market Share by Player

3.1.1 Global Outdoor Navigation Beacon System Revenue by Player (2021-2026)

3.1.2 Global Outdoor Navigation Beacon System Revenue Market Share by Player (2021-2026)

3.2 Global Outdoor Navigation Beacon System Key Players Head office and Products Offered

3.3 Market Concentration Rate Analysis

3.3.1 Competition Landscape Analysis

3.3.2 Concentration Ratio (CR3, CR5 and CR10) & (2024-2026)

3.4 New Products and Potential Entrants

3.5 Mergers & Acquisitions, Expansion

4 OUTDOOR NAVIGATION BEACON SYSTEM BY REGION

4.1 Outdoor Navigation Beacon System Market Size by Region (2021-2026)

4.2 Global Outdoor Navigation Beacon System Annual Revenue by Country/Region (2021-2026)

- 4.3 Americas Outdoor Navigation Beacon System Market Size Growth (2021-2026)
- 4.4 APAC Outdoor Navigation Beacon System Market Size Growth (2021-2026)
- 4.5 Europe Outdoor Navigation Beacon System Market Size Growth (2021-2026)
- 4.6 Middle East & Africa Outdoor Navigation Beacon System Market Size Growth (2021-2026)

5 AMERICAS

- 5.1 Americas Outdoor Navigation Beacon System Market Size by Country (2021-2026)
- 5.2 Americas Outdoor Navigation Beacon System Market Size by Type (2021-2026)
- 5.3 Americas Outdoor Navigation Beacon System Market Size by Application (2021-2026)
- 5.4 United States
- 5.5 Canada
- 5.6 Mexico
- 5.7 Brazil

6 APAC

- 6.1 APAC Outdoor Navigation Beacon System Market Size by Region (2021-2026)
- 6.2 APAC Outdoor Navigation Beacon System Market Size by Type (2021-2026)
- 6.3 APAC Outdoor Navigation Beacon System Market Size by Application (2021-2026)
- 6.4 China
- 6.5 Japan
- 6.6 South Korea
- 6.7 Southeast Asia
- 6.8 India
- 6.9 Australia

7 EUROPE

- 7.1 Europe Outdoor Navigation Beacon System Market Size by Country (2021-2026)
- 7.2 Europe Outdoor Navigation Beacon System Market Size by Type (2021-2026)
- 7.3 Europe Outdoor Navigation Beacon System Market Size by Application (2021-2026)
- 7.4 Germany
- 7.5 France
- 7.6 UK
- 7.7 Italy
- 7.8 Russia

8 MIDDLE EAST & AFRICA

8.1 Middle East & Africa Outdoor Navigation Beacon System by Region (2021-2026)

8.2 Middle East & Africa Outdoor Navigation Beacon System Market Size by Type (2021-2026)

8.3 Middle East & Africa Outdoor Navigation Beacon System Market Size by Application (2021-2026)

8.4 Egypt

8.5 South Africa

8.6 Israel

8.7 Turkey

8.8 GCC Countries

9 MARKET DRIVERS, CHALLENGES AND TRENDS

9.1 Market Drivers & Growth Opportunities

9.2 Market Challenges & Risks

9.3 Industry Trends

10 GLOBAL OUTDOOR NAVIGATION BEACON SYSTEM MARKET FORECAST

10.1 Global Outdoor Navigation Beacon System Forecast by Region (2027-2032)

10.1.1 Global Outdoor Navigation Beacon System Forecast by Region (2027-2032)

10.1.2 Americas Outdoor Navigation Beacon System Forecast

10.1.3 APAC Outdoor Navigation Beacon System Forecast

10.1.4 Europe Outdoor Navigation Beacon System Forecast

10.1.5 Middle East & Africa Outdoor Navigation Beacon System Forecast

10.2 Americas Outdoor Navigation Beacon System Forecast by Country (2027-2032)

10.2.1 United States Market Outdoor Navigation Beacon System Forecast

10.2.2 Canada Market Outdoor Navigation Beacon System Forecast

10.2.3 Mexico Market Outdoor Navigation Beacon System Forecast

10.2.4 Brazil Market Outdoor Navigation Beacon System Forecast

10.3 APAC Outdoor Navigation Beacon System Forecast by Region (2027-2032)

10.3.1 China Outdoor Navigation Beacon System Market Forecast

10.3.2 Japan Market Outdoor Navigation Beacon System Forecast

10.3.3 Korea Market Outdoor Navigation Beacon System Forecast

10.3.4 Southeast Asia Market Outdoor Navigation Beacon System Forecast

10.3.5 India Market Outdoor Navigation Beacon System Forecast

- 10.3.6 Australia Market Outdoor Navigation Beacon System Forecast
- 10.4 Europe Outdoor Navigation Beacon System Forecast by Country (2027-2032)
 - 10.4.1 Germany Market Outdoor Navigation Beacon System Forecast
 - 10.4.2 France Market Outdoor Navigation Beacon System Forecast
 - 10.4.3 UK Market Outdoor Navigation Beacon System Forecast
 - 10.4.4 Italy Market Outdoor Navigation Beacon System Forecast
 - 10.4.5 Russia Market Outdoor Navigation Beacon System Forecast
- 10.5 Middle East & Africa Outdoor Navigation Beacon System Forecast by Region (2027-2032)
 - 10.5.1 Egypt Market Outdoor Navigation Beacon System Forecast
 - 10.5.2 South Africa Market Outdoor Navigation Beacon System Forecast
 - 10.5.3 Israel Market Outdoor Navigation Beacon System Forecast
 - 10.5.4 Turkey Market Outdoor Navigation Beacon System Forecast
- 10.6 Global Outdoor Navigation Beacon System Forecast by Type (2027-2032)
- 10.7 Global Outdoor Navigation Beacon System Forecast by Application (2027-2032)
 - 10.7.1 GCC Countries Market Outdoor Navigation Beacon System Forecast

11 KEY PLAYERS ANALYSIS

- 11.1 WISER Systems
 - 11.1.1 WISER Systems Company Information
 - 11.1.2 WISER Systems Outdoor Navigation Beacon System Product Offered
 - 11.1.3 WISER Systems Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)
 - 11.1.4 WISER Systems Main Business Overview
 - 11.1.5 WISER Systems Latest Developments
- 11.2 Zebra Technologies
 - 11.2.1 Zebra Technologies Company Information
 - 11.2.2 Zebra Technologies Outdoor Navigation Beacon System Product Offered
 - 11.2.3 Zebra Technologies Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)
 - 11.2.4 Zebra Technologies Main Business Overview
 - 11.2.5 Zebra Technologies Latest Developments
- 11.3 Link Labs
 - 11.3.1 Link Labs Company Information
 - 11.3.2 Link Labs Outdoor Navigation Beacon System Product Offered
 - 11.3.3 Link Labs Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)
 - 11.3.4 Link Labs Main Business Overview

11.3.5 Link Labs Latest Developments

11.4 Inpixon

11.4.1 Inpixon Company Information

11.4.2 Inpixon Outdoor Navigation Beacon System Product Offered

11.4.3 Inpixon Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.4.4 Inpixon Main Business Overview

11.4.5 Inpixon Latest Developments

11.5 Siemens

11.5.1 Siemens Company Information

11.5.2 Siemens Outdoor Navigation Beacon System Product Offered

11.5.3 Siemens Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.5.4 Siemens Main Business Overview

11.5.5 Siemens Latest Developments

11.6 KINEXON

11.6.1 KINEXON Company Information

11.6.2 KINEXON Outdoor Navigation Beacon System Product Offered

11.6.3 KINEXON Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.6.4 KINEXON Main Business Overview

11.6.5 KINEXON Latest Developments

11.7 Ubisense

11.7.1 Ubisense Company Information

11.7.2 Ubisense Outdoor Navigation Beacon System Product Offered

11.7.3 Ubisense Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.7.4 Ubisense Main Business Overview

11.7.5 Ubisense Latest Developments

11.8 Quuppa

11.8.1 Quuppa Company Information

11.8.2 Quuppa Outdoor Navigation Beacon System Product Offered

11.8.3 Quuppa Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.8.4 Quuppa Main Business Overview

11.8.5 Quuppa Latest Developments

11.9 Pozyx

11.9.1 Pozyx Company Information

11.9.2 Pozyx Outdoor Navigation Beacon System Product Offered

11.9.3 Pozyx Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.9.4 Pozyx Main Business Overview

11.9.5 Pozyx Latest Developments

11.10 Sewio Networks

11.10.1 Sewio Networks Company Information

11.10.2 Sewio Networks Outdoor Navigation Beacon System Product Offered

11.10.3 Sewio Networks Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.10.4 Sewio Networks Main Business Overview

11.10.5 Sewio Networks Latest Developments

11.11 Eliko

11.11.1 Eliko Company Information

11.11.2 Eliko Outdoor Navigation Beacon System Product Offered

11.11.3 Eliko Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.11.4 Eliko Main Business Overview

11.11.5 Eliko Latest Developments

11.12 IDENTEC SOLUTIONS

11.12.1 IDENTEC SOLUTIONS Company Information

11.12.2 IDENTEC SOLUTIONS Outdoor Navigation Beacon System Product Offered

11.12.3 IDENTEC SOLUTIONS Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.12.4 IDENTEC SOLUTIONS Main Business Overview

11.12.5 IDENTEC SOLUTIONS Latest Developments

11.13 Actility

11.13.1 Actility Company Information

11.13.2 Actility Outdoor Navigation Beacon System Product Offered

11.13.3 Actility Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.13.4 Actility Main Business Overview

11.13.5 Actility Latest Developments

11.14 Litum

11.14.1 Litum Company Information

11.14.2 Litum Outdoor Navigation Beacon System Product Offered

11.14.3 Litum Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.14.4 Litum Main Business Overview

11.14.5 Litum Latest Developments

11.15 Minew

11.15.1 Minew Company Information

11.15.2 Minew Outdoor Navigation Beacon System Product Offered

11.15.3 Minew Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.15.4 Minew Main Business Overview

11.15.5 Minew Latest Developments

11.16 Feasycom

11.16.1 Feasycom Company Information

11.16.2 Feasycom Outdoor Navigation Beacon System Product Offered

11.16.3 Feasycom Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.16.4 Feasycom Main Business Overview

11.16.5 Feasycom Latest Developments

11.17 TSINGOAL

11.17.1 TSINGOAL Company Information

11.17.2 TSINGOAL Outdoor Navigation Beacon System Product Offered

11.17.3 TSINGOAL Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.17.4 TSINGOAL Main Business Overview

11.17.5 TSINGOAL Latest Developments

11.18 Murata Manufacturing

11.18.1 Murata Manufacturing Company Information

11.18.2 Murata Manufacturing Outdoor Navigation Beacon System Product Offered

11.18.3 Murata Manufacturing Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.18.4 Murata Manufacturing Main Business Overview

11.18.5 Murata Manufacturing Latest Developments

11.19 Pinmicro

11.19.1 Pinmicro Company Information

11.19.2 Pinmicro Outdoor Navigation Beacon System Product Offered

11.19.3 Pinmicro Outdoor Navigation Beacon System Revenue, Gross Margin and Market Share (2021-2026)

11.19.4 Pinmicro Main Business Overview

11.19.5 Pinmicro Latest Developments
