Abstracts

The global Outpatient Clinic market size is predicted to grow from US\$ 91600 million in 2025 to US\$ 127900 million in 2032; it is expected to grow at a CAGR of 5.0% from 2026 to 2032.

Outpatient clinics play a crucial role in healthcare by providing medical services to patients who do not require hospitalization. These clinics offer a wide range of treatments, diagnostics, and consultations across various specialties, such as internal medicine, dermatology, and surgery. Patients can receive the necessary care and advice for their health issues and return home the same day. This model of healthcare delivery optimizes hospital resources by focusing on short-term treatments and consultations, benefiting both the healthcare system and patients by reducing the need for inpatient care.
