The report requires updating with new data and is sent in 48 hours after order is placed.

An over-the-top (OTT) media service is a media service offered directly to viewers via the Internet. OTT bypasses cable, broadcast, and satellite television platforms; the types of companies that traditionally act as controllers or distributors of such content. It has also been used to describe no-carrier cellphones, with which all communications are charged as data, avoiding monopolistic competition, or apps for phones that transmit data in this manner, including both those that replace other call methods and those that update software.
