## Abstracts

The global Paid Question and Answer market size is predicted to grow from US$ million in 2025 to US$ million in 2031; it is expected to grow at a CAGR of %from 2025 to 2031.

Paid Q&A means that users get professionals or experts to answer their own questions by paying a certain fee. With the development of artificial intelligence technology, paid question-and-answer platforms have begun to use AI auxiliary tools and algorithms to provide intelligent recommendation and answer matching services. By analyzing the data of user questions and expert answers, the platform can more accurately recommend appropriate experts and answers to improve user experience.
