Abstracts

The global Passenger Car Leasing market size is predicted to grow from US\$ 82710 million in 2025 to US\$ 133000 million in 2032; it is expected to grow at a CAGR of 7.2% from 2026 to 2032.

Passenger car leasing is a contractual arrangement where an individual or business pays a monthly fee to use a vehicle for a specified period, typically two to five years. Unlike traditional car ownership, where the owner buys the vehicle outright or through financing and assumes all responsibilities for maintenance, repairs, and resale value, leasing allows for the temporary use of a car without the long-term commitment or financial burden of ownership.

The major players in global Vehicle Leasing market include Enterprise, Hertz, Avis Budget, etc. The top 3 players occupy about 55% shares of the global market. North America and Europe are main markets, they occupy about 70% of the global market. Business Leasing is the main type, with a share about 60%. Airport is the main application, which holds a share about 70%.
